New Session Will Quickly Follow Polling in Old Land

BODY TAKEN TO-DAY FROM GORGE WATER

Arthur G. Ligertwood Met Tragic End While Bathing This Morning

Was Well-known For Active Interest in Welfare of the City

Expiring before aid could reach him, Arthur Gordon Ligertwood, prominent in Victoria business circles, died this morning while bathing in the waters of the Gorge opposite his home.

As was his daily practice, Mr. Ligertwood left the residence at 210 Gorge Road West, to take a morning plunge. He was seen approaching the public bathing houses on the far side of the water from his home about 7:30 a.m., attired in a bathing suit and dressing gown.

How long he was in the water is not definite, but Mr. Ligertwood suddenly gave signs of distress and passed away before help could reach him.

FAILED TO RESPOND

Constable Hastings of the Saanich Police Force, was summoned and assisted by J. Young, W. Harman, W. Garrard, J. Goret and others, applied artificial respiration. Their efforts were without avail. Hastily summoned, Dr. Henry J. Wasson pronounced life extinct.

The late Mr. Ligertwood is survived by a wife and family. He was prominently known in relation to business matters in this city, and functioned as a director of more than one organization.

INTEREST IN PUBLIC AFFAIRS

Except for an active and generous interest in the welfare of the city, the late Mr. Ligertwood had retired from business. He served in many voluntary capacities in connection with local enterprises and so-called in his purse or his time had ever been made in vain.

The late Mr. Ligertwood came to Victoria from the southern states, where he had achieved financial success as a rancher on a large scale. His sudden passing came as a great shock to his many friends.

The remains are reposing at the B.C. Funeral establishment. Funeral arrangements will be announced later.

ALI NOT EXPECTED TO BE MONARCH OF HEDJAZ FOR LONG

Wahabis Intend to Force Him to Follow His Father into Retirement

London, Oct. 9.—The Daily Chronicle's Port Sudan correspondent telegraphs that the latest news from Mecca makes it fairly clear that the Emir Ali is not going to be more popular than his father as king of the Hedjaz and that Ibn Saud, leader of the Wahabi tribesmen, will continue his pressure on Mecca until all follows Hussein into retirement. It is not probable, however, that Ibn will attempt to occupy the Holy City of Mecca, believing such a step would arouse strong forces against him, while the present position of his tribesmen within a few miles of the city enables him to cause the situation to develop in accordance with his wishes.

Ibn's immediate object is to procure the banishment of the whole Haasani family. It is declared, and nothing is likely to result from Ali's hope of starting negotiations.

HUSSEIN TO LEAVE

Jeddah, Arabia, Oct. 9.—Ben Ali Hussein, former King of the Hedjaz, who abdicated several days ago under pressure of Ibn Saud, leader of the Wahabi tribesmen, will leave the Hedjaz to-morrow for an unannounced destination. It is understood here, where he arrived from Mecca to-day.

INVITATION TO PRINCE

Winnipeg, Oct. 9.—The Prince of Wales, the royal teacher, may assume a new role during his brief stay in Winnipeg, that of actioner. In a telegram sent to him, the Prince is requested to accept the invitation of the Manitoba Stock and Feeders Show now being held in Winnipeg.

SALVATION ARMY LEADER COMING TO THIS COAST

D. C. LAMB
Now on his way across Canada, Mr. Lamb, Commissioner of the Salvation Army in London, Eng., will reach the British Columbia coast soon.

TO CALL HIGHWAY BIDS ON MONDAY

Tenders for the completion of the Transprovincial Highway, by the construction of a road along the Fraser River Canyon, from Hope to Spence's Bridge, will be called next Monday, Hon. W. H. Sutherland, Minister of Public Works, announced to-day. The bids will be returnable in thirty days. The figures thus submitted will be on hand while the Legislature is in session and the House will be given an opportunity to decide for itself whether it wants the highway project carried to a completion at this time or not.

U.S. Navy Airship Flies to Coast From Texas Point

Fort Worth, Texas, Oct. 9.—The United States navy dirigible Shenandoah, delayed forty-five minutes this morning on account of taking on supplies, sailed westward from Fort Worth at 9:45 a.m. The airship is on a 7,000-mile flight from Lakehurst, N.J., to and along the Pacific Coast and back to Lakehurst. It will visit Seattle.

MANY LOST LIVES WHEN STORM SWEEP KAGOSHIMA

Tokio, Oct. 9.—Several persons were killed and many others perished later when several vessels in Kagoshima Harbor foundered in a terrific typhoon which swept Kagoshima, on the island of Kyushi, Southern Japan, last night. Sixty houses were destroyed.

Central Japan also suffered from the storm, telegraphic and railway communications being temporarily interrupted.

ERNEST MILLER SUCCUMBS TO-DAY

He Was Prominent as Lawyer and Legislator Under Sir Richard McBride

Vancouver, Oct. 9.—Succumbing to a lengthy illness, Ernest Miller, one of the foremost members of the British Columbia bar, and former well-known Conservative legislator at the time of the McBride Government, died at the residence of his sister, Mrs. D. Todd Lees, 955 Broughton Street, this morning. He is survived by his widow and two children.

ROBBED TO ATTRACT ATTENTION TO NEED

Rings Valued at \$4,090 Recovered After Short Chase

That \$4,090 worth of gold and platinum rings were involved in the daylight jewel robbery of the Government Street windows of Mitchell & Duncan yesterday, and that the robbery was the dispiriting act of a man in needy circumstances to attract public attention to his plight developed in the City Police Court to-day when John W. Ellington was charged with the deed.

POLICE TRY TO RESCUE MAN AT NIAGARA FALLS

Niagara Falls, N.Y., Oct. 9.—The lone occupant of a gasoline cabin cruiser, stranded in the Niagara River 300 yards above the rapids approaching the falls, having declined all offers to rescue him from his perilous position last night, was still aboard his craft this morning. Should the cruiser be lifted from the rocks, it was feared that it would be carried into the rapids and over the falls.

BRITISH AMERICA PAINT COMPANY TO EXTEND PLANT

Growth of Business in Victoria Makes Extensions Necessary

Increasing business and prospects for a continued increase are reasons given for extensions to the British America Paint Company's plant on Belleville Street, tenders on which will be called for this week. Plans have been prepared to provide more space in the shipping room by the erection of what will practically be a new two story building adjoining the present shipping warehouse.

ASKS BRITISH TO ENDORSE POLICIES; PREMIER MacDONALD

PRINCE APPRECIATED HIS RECEPTION HERE

The fact that Victoria respected the wishes of the Prince of Wales, when he desired to pay a visit without formalities and enjoy a short holiday in the city, is mentioned with appreciation in a letter received by Mayor Hayward. The letter written from the steamer Princess Louise reads: "The Prince of Wales desires me to let you know how much he enjoyed his short holiday in your beautiful city, and how much he appreciated the friendly welcome of your citizens who never failed to respect his desire for privacy."

Ottawa, Oct. 9.—Word was received here to-day of the death of C. A. Gauvreau, M.P. for Temiscouata, Que. He was a Liberal and had been in the House of Commons since 1897. His death creates the third vacancy in the Commons, the other two being West Hastings, Ontario, and Yale, B.C.

Rise in Price of Wheat in France Is Investigated

Paris, Oct. 9.—The sudden and extensive rise in the price of foreign wheat appearing suspicious to the Government, Premier Herriot has ordered a judicial investigation with a view to prosecuting operators who may be forcing up the price by illegal methods.

Disarmament Bill Now Before Danish Assembly

Copenhagen, Oct. 9.—The Socialist Government yesterday presented to Parliament its disarmament bill, which proposes virtually to abolish the Danish army and navy and do away with the military service law.

Old Parliamentarians Say Measure will be Voted Down; Would Virtually Abolish Army and Navy; Corps of Guards for Frontier Duty.

For the army would be substituted a corps of guards to assist the frontier and customs gendarmerie and police in guarding the boundaries of the country and in maintaining order. The corps would consist of only 7,500 men, officered from the ranks, and would not be organized as an army against an enemy. The present navy would be replaced by coastguard ships for the protection of national interests within Danish territorial waters.

SHARP CAMPAIGN OF ONLY THREE WEEKS WILL LEAD UP TO OLD COUNTRY ELECTION

Parliament Which Produced First Labor Government of Great Britain Dissolved Following Vote in House of Commons; New Parliament is to Meet a Week or Two After People Express Their Will at Polls October 29, States Premier Macdonald.

London, Oct. 9.—Parliament will be dissolved to-night and a general election will be held October 29, it was announced this afternoon, after King George had held a session of the Privy Council at Buckingham Palace at which he signed a proclamation proroguing Parliament.

The announcement of the date of the election, which will define the political complexion of the Government which will succeed Great Britain's first Labor Ministry, was made after Premier Macdonald, coming this afternoon before the House of Commons, which last night defeated his Government, stated the King had assented to his request for the dissolution of Parliament.

PLAYED BIG PART IN BRINGING ON BRITISH ELECTION

SIR PATRICK HASTINGS
Withdrawal of the prosecution on a seditious charge of the Communist editor of The Workers' Weekly in London, was chosen by the opposition groups as the point on which to attack and defeat the Labor Government of Great Britain.

THREE KILLED IN TRAIN AND AUTO SMASH IN ONTARIO

Sudbury, Ont., Oct. 9.—Three were killed and three seriously injured in a level crossing accident near Turbide, twenty-eight miles west of Sudbury on the Sault Ste. Marie branch, when a westbound C. P. R. freight train struck an automobile with six occupants.

ISLAND OF CAPRI CENTRE OF REPOSE FOR INTELLECTUALS

Paris, Oct. 9.—The Paris Midi reports that Premier Mussolini of Italy intends to offer the Island of Capri to the League of Nations as a centre of repose for "intellectuals" of the world.

PREMIER VISITED PALACE

London, Oct. 9.—King George was waited on by Premier Macdonald this morning, following the Government's defeat in the House of Commons last night, and agreed to the dissolution of Parliament.

VOTE IN COMMONS

His defeat in the Commons came in the form of a passage of a vote of 194 to 193, of a Liberal motion demanding investigation of Attorney-General Hastings's withdrawal of the prosecution in the case of James Campbell, acting editor of The Communist Workers' Weekly, who was charged with inciting His Majesty's forces to sedition.

REGRETS DEVELOPMENTS

Upon informing the press, after he had left the King, that dissolution had been decided upon, Mr. Macdonald said: "I regret the course pursued by his Government."

WASHINGTON SCORES GREAT VICTORY IN SIXTH BATTLE EVENING UP SERIES AGAIN

Senators Beat Art Nehf, McGraw's Star Southpaw 2-1 in Closest Game of Series; Zachary Pitched Great Game for Winners; "Bucky" Harris, Washington Skipper, Drove in Winning Runs in Fifth with Slashing Single; Final Game in Washington To-morrow.

Griffith Stadium, Washington, D.C., Oct. 9.—The Washington Senators once more evened the 1924 world's series by defeating the New York Giants and Art Nehf, McGraw's star, two to one to-day before a howling crowd of 37,000. Each team has now won three games. The seventh and final contest will be played here to-morrow.

President Coolidge saw the game to-day. The box score follows:

Table with columns for Washington and New York players and their statistics.

FIRST INNING

Giants—Bluege took Lindstrom's bunt and threw him out at first. Frisch got a two-base hit to right by hard running. Zachary took Young's slash and Frisch was run down. Zachary to Bluege to Harris, Young going to second on the run-down. Kelly singled to centre, Young scoring. Rice leaped up in the air and took Meusel's long drive that was headed into the bleachers, with his glove hand. One run, two hits, no errors.

Decision On Crow's Nest Freight Rates Next Week

Commission May Break New Ground in Giving Ruling on Freight Charges Through-out Canada; Appeal to Cabinet Expected.

Ottawa, Oct. 9.—The judgment of the Railway Board in the Crow's Nest Pass freight rates case is expected early next week.

The nature of the decision is a closely guarded secret, but it would not surprise those watching the proceedings if the commission were to break new ground in its findings. Opinions have been expressed in the past by various commissioners that the rates in the Crow's Nest agreement were a statutory maximum, and Parliament has legislated on that theory; but there is good ground for saying the board does not regard itself as bound by its previous decisions.

order a return to the rates in force before July 7 last, or they may vary those conditions under which they were made. If they answer it in the affirmative they will then need to decide whether the Crow's Nest rates are applicable all over the Canadian railways, even in the Maritime Provinces, or whether they are limited to points on the C.P.R. as it existed in 1917, when the agreement was made.

Another Man Convinced

Dreco Arouses the Enthusiasm of Well-known Medicine Hat Citizen. It's Splendid tonic properties are Helping Him Back to Health

When a man feels weak, run down and out of sorts, he can generally blame it on his digestive system. The stomach is not functioning as it should with the result that food values are not properly assimilated into the system, while waste matter is retained to clog and weaken the other organs. Dreco is especially beneficial in such cases. It immediately tones the stomach up and gets it working properly, at the same time cleansing the system thoroughly and purifying the blood.

"My entire system was run down for many months," says Mr. Adams. "I had pains in my back and was constipated. Deciding that I needed a good tonic, I gave Dreco a trial and although I have only taken three bottles, notice a wonderful improvement in my condition. I am much encouraged and intend continuing the treatment."

Dreco is Nature's own tonic and regulator, made from the pure juices of twelve medicinal herbs, roots, bark and leaves. It contains no mercury, potash or habit forming drugs, or anything else that would injure the most delicate system.

Dreco is being specially introduced in Victoria by Vancouver Drug Co., Limited Corner Fort and Douglas Streets

Go there to-day and ask for Mr. Vaughan, the Dreco Expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreco will benefit you. Dreco is also on sale in New Westminster and Vancouver by the Vancouver Drug Stores, and in other towns as follows:

- Port Haney—Campbell's Drug Store
Port Moody—Graham Knight
Hammond—H. C. Betts
Port Coquitlam—J. O. Neave

Why not the table of her dreams?

AMBASSADOR PATTERN Orange Spoons

JANET had looked forward with delight to entertaining her friends and Henry's in this new dining-room resplendent in her wedding silver—the six knives, the six forks, the six spoons and the serving pieces. But here, right at the start, was a party that called for more than "six of each." Somehow this was not the table of her dreams. Those extra places, so sparsely and oddly set, banished the dream!

Perhaps you, too, are often surprised to find that your wedding silverware, once so adequate, now falls short of your entertaining requirements. Yet the sensible thing is to let your silver service grow with the social responsibilities of the home. And with "1847 Rogers Bros." it is both convenient and inexpensive to do so. This finest silverplate, unsurpassed in beauty and durability, comes in every kind of piece the most fastidious hostess could desire. Purchase to-day the pieces you require. When you need more, you can get them easily, for leading dealers throughout the Dominion carry "1847 Rogers Bros."

May we send you a copy of our booklet, "Etiquette, Entertaining and Good Sense"? Its illustrations of table settings are authoritative to the last degree. You will find it full of suggestions for successful entertaining. Write for it to-day. Meriden Britannia Co., Limited, Hamilton, Ontario.

**STRESSES VALUE OF TIMBER TRADE**

Successful Gathering With Officials of Alberni and Port Alberni

The importance of the timber industry to the West Coast of Vancouver Island was emphasized on Tuesday evening by C. P. W. Schwengers to the Chamber of Commerce touring party when as president he extended a greeting to the council and boards of trade of Port Alberni and Alberni at the Arlington Hotel, Alberni. His statement on the development of the timber, combined with its harbor accommodation, on the most advantageous site of the West Coast assured a great future for the industry of the two towns, but the greatest asset of immediate potential development was that of the tourist traffic in which Alberni towns were exceptionally placed, the capitals of the Lake District of the Vancouver Island. To get tourists they must expect to spend money. Victoria, in one way another, had expended in the past ten years about \$500,000, of which benefits had been felt in every settlement on the island.

He urged an effort to construct the Beaver Creek-Comox Lake Road, in which endeavor he promised all possible aid. Mayor Hayward gave an optimistic account of the financial and industrial recovery of Victoria. The tourist business, after his own, had now the largest industry of Victoria. The tourist was a more profitable business than that of manufacturing. J. Carl Penzance, President of the Victoria and Island Publicity Bureau, stated, in outlining the developments which had taken place. Hitherto the island community had not cooperated in the tourist campaign as they ought to do.

L. A. Hanna, Mayor of Alberni, said the area had not received the publicity it ought to have, and such publicity as it sometimes received was erroneous, credit of some of its beautiful places being given to East Coast. He hoped the Bureau would correct these matters in future literature issues.

A. D. McIntyre, Mayor of Port Alberni, acknowledged the toast suitably. The expansion of the seaborne trade of Victoria, particularly as a transfer station for part cargoes, was referred to by C. P. Hill, chairman of the Tourist Trade group of the Chamber, and pointed out how the industry had grown from a small community to a great manufacturing centre. H. Goulding Wilson, former president of the Victoria Board of Trade, answering a comment from Mayor Hanna, explained the growth of business at the Ocean Docks, Victoria, as replying to criticism that the docks were unnecessary.

**DUNCAN GOLFERS ENGAGE IN CONTESTS**

Radford vs. Roger Young; First round—R. Woodward, bye; H. Macmillan vs. Genest; Noel Radford, bye. A mixed foursome competition of eight holes against special handicap, has been arranged for Thursday, Oct. 16. Competitors will choose their own partners. To-day the men are playing for their monthly medal.

An overdose may result in temporary loss of reason, following which the victim falls into a deep sleep, awakening with no memory of his curious conduct.

**IF KIDNEYS ACT BAD TAKE SALTS**

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

**NANAIMO PUMP IS THOROUGHLY TESTED**

City Council Wants to Know How Much Water it Can Supply

Special to The Times. Nanaimo, Oct. 9.—The City Council has decided to give the fuel oil pump at the Nanaimo River a thorough test to ascertain if possible

just what amount of water it is capable of supplying the city. Ald. Smith proposed that the pump be forced to the limit for twenty-four hours, part on one day and part on the next, the results of both days to be carefully measured, and after that the pump to be closed down for an indefinite period.

Nine fires occurred in this city during the month of September, doing damage to the extent of \$78. This was the report received from Fire Chief Parkin.

The waterworks collector reported that the collections for September totalled \$3,424.42, with outstanding accounts on October 1 of \$498.50.

**ESTIMATE ON TUNNEL**

The council decided to have the engineer give an estimate on the cost of tunnelling the Extension Hill for the water supply line from the South Forks, and for the laying of a pipe line from the No. two reservoir to the pumping station at Nanaimo River.

A young man of Northfield appeared before Police Magistrate Beaver-Potts charged with indecent assault on a girl fifteen years of age. He was remanded for further trial, and permitted out on \$5,000 bail.

**LADYSMITH DANCE NOV. 10 IS PLANNED**

(Special to The Times) Ladysmith, Oct. 9.—T. Collinge, editor of The Ladysmith Chronicle, returned yesterday after attending the Press Association convention held at Vancouver.

The joint committee of the Ladysmith Agricultural Society and the football club have decided to hold a monster Thanksgiving and Armistice dance on Monday, November 10. The purpose of this dance is to raise funds that will help to wipe off the debt on the field. Quite a deal of interest is being taken locally in this affair and it promises to be quite a success.

C. F. Davis, M.P.P.-elect for the Cowichan-Newcastle district, was in town Tuesday interviewing several members of his riding on subjects of interest to the community.

**SAYS CLOUD WILL PASS FROM COAL TRADE OF ISLAND**

President of Victoria Chamber of Commerce Speaks at Ladysmith

By Staff Correspondent

Ladysmith, Oct. 7.—Two factors will contribute to the revival of the mining industry on Vancouver Island, C. P. W. Schwengers, president of the Victoria Chamber of Commerce, said at the Travellers' Hotel, Ladysmith, on Tuesday afternoon, on the occasion of an address at the luncheon in connection with the chamber's Island tour.

One was that fuel oil supply had a limited life, the other that pulverized coal was coming into increasing popularity commercially. "It is only a passing fashion, and it has been estimated that in twenty-five or thirty years fuel oil will be practically exhausted, so that coal will again be king," Mr. Schwengers said.

Later in the luncheon proceedings, T. A. Spruston, representative of the Canadian Collieries at Ladysmith, stated that the development of pulverized coal was an important aspect to Island trade. "They would be glad to learn that the tests were being continued to secure oil from shales, and thereby render of value the large amount of the shale which separated the coal seams and made production difficult and expensive."

Mr. Schwengers, in appealing for the development of the tourist traffic, said that while that was primarily the object of the co-operative movement throughout the island, there were many matters in which the Victoria Chamber showed an unselfish welfare in the island's interests, perhaps at the expense of Victoria business. In this respect he instanced the deepening of the Courtenay River, which would benefit a long desired road to Shell Beach and other points of interest across the harbor, an offer which was gratefully accepted by Mayor W. W. Walker, when he came to reply for the Ladysmith people. The Mayor said his town was composed of highly contented people, of whom 100 per cent were working. In the town scarcely any property went to tax sale.

Mayor Hayward of Victoria associated himself with the desire for united effort to develop the island, particularly in tourist traffic.

LABOR'S DEFEAT

BRITISH LIBERALS AND British Conservatives pooled their votes in the British House of Commons last night and defeated the Labor Government over which Mr. Ramsay MacDonald has presided for the last nine months.

At this stage and distance it is a difficult matter to estimate the wisdom or folly which the two old parties have displayed. On the surface of recent events, as far as they are related to the substance of the motion and its amendment, there seems to have been very little reason why the Government should have been ordered out and the country put to the expense and commercial dislocation which a general election in Great Britain always involves.

By defeating the obvious wish of the majority of the people of this Province, on unjustifiable and fatuous grounds, the Upper Chamber furnished the illicit trader with a new lease of life.

Dr. A. G. PRICE, Victoria's Health Officer, who has just returned from a tour of the British Isles, learned that visitors to Wembley "are very thirsty for information about British Columbia and particularly Vancouver Island."

ON NOVEMBER 9, 1923, four days before the dissolution of Parliament, when Mr. Stanley Baldwin was Prime Minister, Mr. Wickham Steed wrote an article in The Review of Reviews under the title of "Need The Cabinet Fall?"

THE Conservatives and the Liberals, virtually by common consent, have sent Mr. MacDonald to the country. What happened in 1923 is history; another experiment is now being tried. What of the outcome?

How the men and women of Britain love a political fight! The one about to start will be a merry one.

period suspended party differences and produced the coalition. Mr. MacDonald will tell the electorate that the Labor Government has been defeated and his supporters cheated out of the position, to which years of earnest endeavor had entitled them, by a frivolous manoeuvre.

SENATE TO BLAME

BASED UPON THE recent discovery of forged and stolen Government liquor labels, and the attention which that discovery attracted, The Ottawa Citizen describes British Columbia as a "bootleggers' paradise."

It is easily explained. The Senate refused to endorse a measure twice approved by the House of Commons—which had been designed to give the Government of British Columbia the sole right to import.

By defeating the obvious wish of the majority of the people of this Province, on unjustifiable and fatuous grounds, the Upper Chamber furnished the illicit trader with a new lease of life.

WE MUST ADVERTISE

DR. A. G. PRICE, Victoria's Health Officer, who has just returned from a tour of the British Isles, learned that visitors to Wembley "are very thirsty for information about British Columbia and particularly Vancouver Island."

DR. FRANK CRANE "The Heart of the House"

ALTHOUGH silver will always have uses as a precious metal its day of adorning the table seems to be over.

And for the very best of reasons; there is no one to keep it clean. His girls are too costly to be employed by any but the most fortunate, in polishing without end, and daughters who are silver burners, the greater part of their lives burning silver are mostly things of the past.

All of us can remember when the silver water pitcher and soup tureen were objects of ornament for grandmother's table.

With the decay of Victorian prosperity, says The London Times, silver may have grown thinner, but its tradition was bravely maintained for a while.

Even the great old silver, which in its rich fittings used to reflect the surrounding flush of mahogany hungy ancestors, has given way to stained steel.

We are all turning to substitutes and the uniformity of silver being gone, we turn to ourselves in our choice of them.

By using articles of use and adornment in the museums.

KNOW YOUR COUNTRY

COST OF MONTREAL HARBOR Q.—What has the deep water harbor of Montreal cost?

A.—The harbor of Montreal has cost \$21,000,000, providing 100 steamers berths from 50 to 70 feet in length, and with a depth of water from twenty-five to thirty-five feet.

CANADA'S FIRST EXHIBITION Q.—When and where was the first exhibition held in Canada?

A.—The first exhibition in Canada was held in 1877, promoted by the intention of New France, Hosiery, and the first exhibition in Canada was held in 1877, where it was shown. The first exhibition in Upper Canada was at Newark (Niagara).

WORDS OF WISE MEN

Quick is the succession of human events; the cares of to-day are seldom the cares of to-morrow, and when we lie down at night, we may safely say to most of our troubles, "Ye have done your worst, and we shall meet no more."

This fine old world of ours is but a child. Yet in the go-cart, "Patience! Give it time!"

To learn its limits; there is a hand that guides. —Tennyson.

Care for no man's censure; unless conscience countersign it. The gem cannot be polished without friction, nor man be perfected without trials.

The excesses of your youth are debts upon your old age, payable with interest about thirty years after date.

Never sound the trumpet of your own praise. —Aesop.

Cruelty was the vice of the ancient world; it is that of the modern world.

Away with delay! It is ever injurious to put off things ready to be undertaken.

Self-mastery must lie at the beginning and not at the end of the life of service.

What cannot be removed becomes lighter by means of patience.

He that loses his honesty has nothing else left to lose.

ORMONDS LIMITED Confectioners and Grocers Spend Interesting Day Inspecting Plant

A party of about 250 Victoria grocers and confectioners and their wives accepted the invitation extended by Ormonds Limited to visit their plant yesterday afternoon, the midweek holiday leaving the merchants free to spend a most interesting afternoon inspecting the manufacture of the products which most of them retail in their stores.

Members of the staff acted as guides and showed the visitors through every part of the works, while those working at the many machines cheerfully explained their operations as they proceeded with their work in the spacious and spotlessly clean factory.

Every process of manufacture of the variety of candies sold by Ormonds Limited was witnessed from the huge cauldrons of burnished copper heated with steam, where the raw materials are first placed, to the last stage.

One machine coating 700 pounds of candy a day with chocolate. Other girls, all in spotless white, dipped by hand the more expensive chocolates.

In the display room was a huge table crammed with representatives of every variety manufactured in the factory.

The biscuit department was no less interesting to the guests. Here the famous Forfar Creams were baked in the huge open-faced ovens at the rate of 600 each hour.

They could be seen in the oven resting in rays on a contrivance revolving like a ferris wheel.

After completion of their inspection of the plant the guests partook of delightful refreshments prepared by some of the girl employees of the factory. Here they got up to the products and sipped a tea to a very practical test.

BRITISH LABORITES CHEERED HASTINGS Delegates at London Conference Gave Ovation to Attorney-General

London, Oct. 9.—The conference of the Parliamentary Labor Party, started yesterday morning just before the opening of the House of Commons session which resulted in the defeat of Great Britain's first Labor Government, was continued to-day when it was turned into something of a joy feast and an enthusiastic election campaign meeting.

When Attorney-General Herbert Morrison, whose conduct of the Campbell seditious case furnished the immediate cause for the Liberal attack on the Labor Government which resulted in Premier MacDonald's reverse last night, arrived at the conference this morning the delegates arose en masse, cheered for several minutes, and sang "Red Flag" with wholeheartedness.

The conference decided to abandon, in the light of yesterday's developments, the unimportant points of the programme and to deal with the others as part of the election campaign.

J. R. Clynes, Lord Privy Seal, told the meeting that the Premier, with the King at Buckingham Palace, whereupon there were shouts of "He's in good hands!"

Mr. Clynes said Labor had cause to be proud of its Premier, and never more than in this hour of defeat, which would be the gateway to a greater victory.

"Last night," he asserted, "we could have saved our political life for a few weeks by suffering humiliation by submission or by compromise. We no longer have the press behind us as a Labor Cabinet, but in this as in other matters we have no fear of the future, and neither now nor in the future will we do anything to lower the dignity of the Cabinet."

CHILDREN NOW WEAR SUBSCRIBERS' BADGE

Small contributions and larger sums following on another on the subscription list for the war memorial fund indicate that a sincere effort is being made by citizens to do their share in securing for Victoria a suitable monument to the dead of the Great War.

Since the boxes were placed in the schools of the city many children are wearing the little badge that is given to each subscriber and talks by the teachers have impressed them with the nature of the effort which is being made. Later contributions are as follows:

D. B. McLaren, Mrs. Shaw, Mr. Angus Campbell, Mrs. Angus Campbell, David Miller, N. B. Pollock, "Doreen," G. P. Grant, R. and T. R. E. C. Fleming, Mr. and Mrs. Cleland, Mrs. A. Whyte, "Friend," Mrs. W. G. Cameron, Miss Mabel A. Cameron, Women's Liberal Conservative Club, A. H. Merris, G. Reid, A. Hustler.

AUTHORS' CLUB HEAR INTERESTING TALK ON LIFE IN ORIENT

The Victoria and Islands Branch, Canadian Authors' Association, met at Victoria College on Monday evening, Mrs. A. de B. L. Shaw presiding.

Considerable business was transacted in reply to a letter from the war memorial committee the sum of \$5 was voted by the meeting.

The members were greatly pleased and interested to hear that Mr. Charles Mair, who occupies an important place in the literature of his country, has come to make his home in Victoria for the winter.

Mr. Mair is congratulating upon his eighty-sixth birthday.

Mr. J. Newberry Hatch, a resident of the Orient for many years, gave a very comprehensive and interesting talk on "China," which proved most timely and of deep interest.

A spirited discussion followed, led by Madame Sanderson. A chapter on "Flaming the Short Story" was read by Miss Eugenie Perry, who had as her guest Miss Merle Hall of Winnipeg. At the close of the meeting refreshments were served in the library.

ASK FOR DEFINITE CONCESSIONS LIST FOR INTERURBAN

Manager H. A. Goward of the British Columbia Electric Railway Company was yesterday interviewed by a joint delegation from Saanich, composed of the whole Municipal Council and representatives of the districts affected by the impending closing down of the Inter-urban Railway. The delegation asked for a statement of terms which would induce the company to continue operation of the Inter-urban.

It was suggested that if the line could not be operated for the full distance, Manager Goward should formulate definite demands for operation through the urban areas of the city.

Kumtuks Hostesses at Bridge and Mah Jong Saturday

The Kumtuks Club during the year gives many donations to local philanthropic causes, making a considerable drain on its resources. To replenish its coffers the club will hold a bridge and mah jong party on Saturday afternoon, this marking its first public affair of the season. Tables may be reserved with Mrs. H. P. Hodges 692, Miss M. A. Wigley 62651, Miss Elsie Richardson 61112, or Miss Shava. Play will commence promptly at 3 o'clock, and tea-guests will be welcomed at 4.45. Players are reminded to bring their own cards and score cards.

Fruit Pies - whether strawberry or raspberry, cherry or plum, apple, peach or raisin - are at their best when "RAISLEY" is used instead of baking powder. Raisley - The BUREAU raising powder - means crispness and lightness, because it raises evenly and perfectly, and ensures uniform cooking throughout. Its damp-proof packing keeps it active. Make your own self-raising flour for biscuits, cakes, rolls and pastry, by using one part "Raisley" to eight parts of your regular flour. Originated by Brown & Polson, of Paisley, Scotland, who make the famous Brown & Polson Corn Starch, the standard of excellence. WOMAN'S DOMAINE

HELP HAND FORMS OF CHILD WELFARE

Island Institutes Interested in Crippled Children and Public Health Nursing. The possibilities of a hospital in British Columbia devoted solely to the care and treatment of crippled children, the development of technical education, and the most extensive prosecution of public health service were among the topics given serious and thoughtful consideration by the Women's Institutes in annual conference here yesterday.

HELPED TWENTY-EIGHT CASES

Mrs. Booth introduced the subject of the crippled children's fund to which the institutes have been contributing for a little over a year. In that time twenty-eight children have been treated in the Vancouver General Hospital by an orthopaedic specialist, twenty-six being either cured or materially benefited by the treatment. One delegate questioned the possibility of establishing a similar ward in a Victoria hospital for the use of children on the island, but it was pointed out that Vancouver was nearer the centres of population, and the scheme was yet too young to allow of more than one centre of treatment.

MRS. V. S. MACLACHLAN SUGGESTED

that the institute's work towards the goal of a special hospital devoted to the care of crippled children for the whole of British Columbia. She cited with pride the achievement of the Cedar Institute, which had handed over to the fund the splendid sum of \$700 raised at a bazaar, as evidence of the results possible by united effort. To the question as to whether the institutes work for crippled children overlapped that of the Junior Red Cross, Mrs. MacLachlan observed that there were 400 orthopaedic cases among schoolchildren in the Province, leaving room for any number of changes of assistance.

MRS. LUCAS SPEAKS

Mrs. C. A. Lucas of the Saanich Health Centre, with the aid of a series of slides, told of the public health nursing work accomplished in the district. She described the difference between the old district nurse and the modern public health nurse, the latter dealing principally with prevention of disease rather than cure. In Saanich the nurses started caring for the child before birth, teaching the mother how to care for herself and the coming child. From birth on the progress of the baby was watched, right through preschool age and again at school. The minor defects of childhood were watched and corrected in order to prevent their development into the serious complaints of later years.

TEETH IMPORTANT

The importance of proper care of the first teeth, and the measures which the nurse takes to teach the child to brush and clean them, the importance of mouth cleanliness, was emphasized. It was now known that decayed teeth were hotbeds of tuberculosis. Parents were gradually becoming educated to these facts, and the work of the public health nurse was easier than formerly through the greater eagerness for information and instruction exhibited. Speaking of the Saanich dental clinic, Mrs. Lucas stated that the number of children attending monthly was approximately 199. The number of children under her supervision in the sixteen Saanich schools was 2,200. Epidemics were checked at the start, the suspects and "contacts" being isolated promptly. The model of the health centre which was shown at the Toronto exhibition, was on view, and Mrs. Lucas paid tribute to Mrs. MacLachlan for conceiving the idea of exhibiting the model in the East, where it won much praise from health experts.

EDUCATION DISCUSSED

The discussion on education and better schools, led by Mrs. Henderson, resulted in an invitation being sent to Mr. John Kyle, provincial organizer of technical education, to attend one of the sessions prepared to speak on the matter and reply to members' questions. Mrs. Henderson, referring to the resolution passed by the Provincial Institutes' convention last April, this resolution endorsed the clause in Mr. Kyle's report, which claimed that the time seemed opportune in British Columbia to pass a compulsory measure calling upon all cities of the first and second class to introduce manual training in their schools. Such an act would show the people of British Columbia that the Department of Education was behind the movement, and would do much to encourage and inspire school boards elected in the smaller towns and rural communities to introduce some measure of domestic science.

TECHNICAL SUBJECTS

Mrs. Henderson approved the resolution which she quoted, adding that if some such measure were adopted, people unacquainted with the great need of these subjects, manual training and domestic science, might cease to raise objections. Technical training was gaining ground in other parts of the Province. Whether all the cities and school boards adopted it or not did not matter, people would continue to be taxed for it and they might better have it, as they were paying for it. As things were being paid for, it was only being deprived of it.

SOCIAL AND PERSONAL

Mr. Justice Murphy left on the boat last night for his home in Vancouver. Miss May Stock of the nursing staff of the Penitentiary Hospital is spending a holiday in Victoria as the guest of friends.

Miss Nancy Buchanan has returned to her home in Vancouver after visiting her grandmother, Mrs. McLimont, Rockland Avenue.

Mrs. Cochran, who has been a guest at "Ethelwold" for the past month, is leaving tomorrow on a visit to friends in Vancouver.

Mr. C. R. Mackay of the North American Life Insurance Company, Vancouver, is a visitor in Victoria and is a guest at the Balmoral Hotel.

Mrs. Roy Glechrist, who has been visiting Mrs. Clarence Arthur in Vancouver, has arrived in the city and is the guest of Miss Mac Dinale, Quadra Street.

Mr. Heaven and Miss Bevan of Duncan, were among the out-of-town guests invited to the Government House on Monday night in honor of H.R.H. the Prince of Wales.

Mr. and Mrs. Guy O. Ridgeway-Wilson of Los Angeles are receiving congratulations on the arrival of an infant daughter on Tuesday, October 7, at the Butte Street Hospital, Vancouver.

After spending the past two years in the city the guest of her parents, Mr. and Mrs. David MacHaffie, Beach Drive, Mrs. Sydney Baker and her two small children are leaving this afternoon on the Empress of Canada for their home in Stumptown.

The many friends of Miss Alice Ravenhill will be pleased to learn that she has so far recovered from her recent long and serious illness that she was able to attend the annual meeting of the Women's Canadian Club on Tuesday, for the first time in many years.

Mr. and Mrs. F. A. Fitzsimmons, who are on a motor trip to California, are at present visiting in Fresno as the guest of the former's brother and sister, Mr. and Mrs. E. C. Fitzsimmons. Before returning to Victoria, Mr. and Mrs. F. A. Fitzsimmons will visit in Los Angeles.

Miss Jean Bostock, daughter of Hon. Senator Bostock, Speaker of the Senate, who with her sister, Miss Nan Bostock, has been in Italy for some months, is on her way home to Monte Creek, B.C. Miss Nan Bostock will go to Scotland, where she will remain for two or three months. Miss Ruth Bostock will sail this week for England to attend school.

TO-MORROW'S HOROSCOPE

By Genevieve Kemble

FRIDAY, OCTOBER 10. According to the day's lunar and mutual aspects, there may be cause for anxiety, as rather troublesome astral forces reign. Money should be safeguarded, business conservatism maintained, and there should be no attempt to make important change or to travel. The health should be given proper attention. In the realm of social, domestic and affectional affairs there may be complications and disappointments. Discretion as to pleasure is enjoined. The number of children under supervision in the sixteen Saanich schools was 2,200. Epidemics were checked at the start, the suspects and "contacts" being isolated promptly. The model of the health centre which was shown at the Toronto exhibition, was on view, and Mrs. Lucas paid tribute to Mrs. MacLachlan for conceiving the idea of exhibiting the model in the East, where it won much praise from health experts.

COLOR AND LIFE ASSURED FOR BALL

No Stunts But a Wealth of Novelty at Next Effort of Press Club

Eight hundred tickets have been printed and the attendance will be limited to that number. The Empress Hotel ballroom and the writing room have been engaged and two orchestras secured for the Press Club Hallows' Eve Ball on the night of October 31. There should be no crowding. The writing room will be cleared for dancing on this occasion and should provide ample room for the overflow from the main ballroom. O'Garra's musicians provide the music in the ballroom. Hunt's orchestra will play in the writing room.

It will be fancy dress, but optional. After a keen and at times heated debate at the last Press Club meeting, it was decided upon to avoid a contest between the Hallows' Eve Ball and that stellar social event the Press Club's annual Valentine Ball, which will be staged as usual, with more of a better status than in February. Globe-trotting reporters have brought back genuine shelties costumes from Arabia and costly bejeweled dresses stolen during service in India. There will be a costume worn by an Indian rajah during the Great Durbar, which, as everyone with a dictionary knows, rivals in splendor of color and selected bravery the glories of the court of Byzantium. Permission will be sought from the officer commanding Military District No. 11 to the effect that service officers of the Press Club can once more don the glad raiment of former days and disguise themselves as soldiers again. Every Scout member of the Press Club will attend in the full Scotch formal dress which enables each evening dress which skits, and Scotsmen the most effective raiment to know.

COMMUNITY BETTERMENT

Marked progress had been made along the lines of public health work by the majority of institutes having formed committees on this work or acted as distributing agents for literature from the Provincial and Federal Boards of Health. Community betterment had met with the support of every institute, community halls being erected, school grounds being improved, play grounds established and similar projects carried to a successful conclusion. Education and better schools, women's institute work and method and other phases of the work were also touched upon. Mrs. A. Booth presided at the session.

PRINCE AT FAIRFORD DANCE ON TUESDAY

Miss Peggy McRae and Miss Lila Malkin Joint Hostesses. Vancouver, Oct. 8.—The Prince of Wales on his arrival in Vancouver on Tuesday evening was the guest of an informal dinner and dance at the home of Miss Peggy McRae and Miss Lila Malkin. Covers were laid for twenty-four, followed by a dance at the Jericho Country Club. Miss McRae, daughter of General and Mrs. A. D. McRae, wore an imported gown of rose chiffon with delicate silver embroidery, her hairband set with rhinestones. Miss Malkin wore a gown of black and white, her hair carried an ostrich feather fan. Miss Malkin, daughter of Mr. and Mrs. W. H. Malkin, chose a Parisian model of orchid georgette with a pretty side panel of shaded ostrich feathers, the gown finished with a rhinestone grille and an ostrich shoulder ornament.

The dinner guests included H. R. H. Prince of Wales, Gen. Trotter, Major Metcalfe, Capt. Alan Laessle, Sir Walter Peacock, Hon. Angus Macdonnell, Miss Peggy McRae, Miss Lila Malkin, Miss Margaret Stewart, Miss Catherine Fordham, Major J. G. Fordham, Miss Helen Johnson, Mr. J. P. Baker, Mr. and Mrs. R. P. Baker, Mrs. Dwight Paul, Miss Bessie Buscombe, Miss Janet Drysdale, Miss Ruth MacLean, Mr. H. E. Molson, Capt. Ian Mackenzie and Miss Allison King. Mrs. J. P. Fell was smartly gowned in a sheet gown of lustrous black satin beaded in jet beads and with two scarlet camellias tipping the left shoulder; Mrs. R. P. Baker, lovely in white crepe embroidered richly in a Chinese motif of blue iridescent beads in dragon pattern; Mrs. Dwight Paul, wearing smart black crepe embroidered in silver and brilliant beading in a lovely floral motif; Miss Margaret Stewart, smart in ivory white beaded in crystal and simply fashioned; Miss Janet Drysdale, wearing June rose pink lace, richly iridescent; Miss Helen Fordham Johnson, wearing a lovely frock of golden tissue; Miss Ruth MacLean, in white crepe and crystal beading; Miss Allison King, in charming white brocade velvet with rhinestone shoulder straps and trimmings and fastenings of silver; Miss Catherine Fordham and Miss Bessie Buscombe, Colonel Fell, Mr. R. P. Baker, Major J. G. Fordham, John Stinson, Mr. E. Pritchard, Mr. Jack Paterson, Mr. Charles Winch, Mr. Jack Norris, Mr. Harry Marshall, Mr. Joe Malkin, Mr. Cameron Macgregor, Mr. Philip Procter, Mr. Laurence Procter, Mr. Dwight Paul, Mr. Alex. Ferrie, Mr. Tucker Battle, Mr. Colin Ferrie, Mr. Blake Wilson, Mr. Phillip Wootten and Mr. Geoffrey Wootten.

A quiet and pretty wedding took place at "Ethelwold" on Tuesday evening, when the Rev. J. Campbell, D.D., officiated at a ceremony which made Miss Nora Douglas Hamilton both of Keating. The bride, who was given in marriage by her mother, was handsome in a traveling suit of dark blue serge, with hat en suite. After a honeymoon on the mainland, Mr. and Mrs. Hamilton will make their home at Keating.

INSTITUTES SHOW RECORD OF PROGRESS

So-called "Domestic Science Lessons" Described as Obsolete in Report. The annual report of Women's Institutes throughout British Columbia was presented to the conference of "Islands" Institute, this morning by Mrs. V. S. MacLachlan, provincial secretary, and evoked some discussion.

At the close of 1923 111 institutes in existence throughout the Province, seven new ones being former during the year, at Slovan Valley, Clearbrook Road, Huntingdon, Northeast Burnaby, and the summaries of the four district conferences were given in the report, the various points of interest being touched upon briefly.

HOME ECONOMICS

On the subject of home economics, Mrs. MacLachlan observed that this committee showed the least progress. "I am forced to the conclusion that the method of instruction, so-called household science—of slowly and gravely reading off a recipe followed by actually combining the ingredients named and cooking the mass—coming educated to these facts, and the work of the public health nurse was easier than formerly through the greater eagerness for information and instruction exhibited. Speaking of the Saanich dental clinic, Mrs. Lucas stated that the number of children attending monthly was approximately 199. The number of children under her supervision in the sixteen Saanich schools was 2,200. Epidemics were checked at the start, the suspects and "contacts" being isolated promptly. The model of the health centre which was shown at the Toronto exhibition, was on view, and Mrs. Lucas paid tribute to Mrs. MacLachlan for conceiving the idea of exhibiting the model in the East, where it won much praise from health experts.

"It is a pity that classes in canning are not being organized, as so many of our women are asking for information on this branch. These classes could be conducted under the night-school regulations. It really seems as though, if properly conducted, this could be of commercial value to the women, so with the crystallizing of fruits.

"We have need of help in the farm homes, but unfortunately there are few, if any, reporting financial ability to hire such.

"There is a great field for useful organization work in making a survey of farm kitchens; in the State of Ohio this has been carried on with startling results. Women are becoming interested in improving and rearranging the kitchen equipment.

"Our committees might have charts, demonstration tables, etc., on exhibit at the fairs, directing attention to the food values and the relation to body-building of the various fruits, vegetables and meats grown on the farms."

Marked progress had been made along the lines of public health work by the majority of institutes having formed committees on this work or acted as distributing agents for literature from the Provincial and Federal Boards of Health.

Community betterment had met with the support of every institute, community halls being erected, school grounds being improved, play grounds established and similar projects carried to a successful conclusion.

Education and better schools, women's institute work and method and other phases of the work were also touched upon. Mrs. A. Booth presided at the session.

I.O.D.E. Chapter to Hold Bridge and Mah Jong Party

To-morrow at the Empress Hotel the Dr. O. M. Jones Chapter, I.O.D.E., will hold a bridge and mah jong party in aid of the general funds of the chapter. Play will commence at 3 o'clock, and players are requested to bring their own cards and scores. Tea will be served at 4.30. Mr. Colton 4838, and Mrs. Foot 6254R, are in charge of table reservations. During the serving of tea, Miss Helen Starr will sing, and Miss Olga Hafe and Miss Lucille Hall will contribute instrumental numbers.

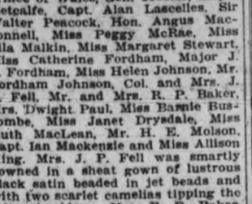

Are You Hungry for Moir?

Doesn't your mouth fairly water at the thought of Moir's rich creamy chocolates. Chocolates concealing deliciously flavored, sun-tipped fruit centers—some with marshmallow, others chock full of meaty nuts or chewy caramels? Mother, children, aye and Dad too love the delights of such fine chocolates. And they are good for them for Moir's famous chocolate coating is as wholesome as bread and butter and far more nourishing. If you have been denying yourself the treat of real chocolate, make haste and give the pass word.

**NEW YORK CHINESE KILLED BY GUNMAN**  
Police Guards Doubled in Order to Prevent New Tong War  
New York, Oct. 8.—Emergency measures were adopted by the police to-day to prevent a recurrence of the shootings in Chinatown last night in which one Chinese was killed and two wounded, one probably mortally. The police believed the shootings were the beginning of a new tong war. Because of the threatening situation, the number of police in the streets around Chatham Square has been more than doubled. Despite precautionary measures, however, the gunman who killed his victim last night escaped. The second victim of the shooting was Tom Fong, a seaman. He was wounded by a detective when he failed to heed the policeman's command to halt. The wounded man is not expected to live. Lee Yindoo, a merchant, was wounded.

**FINDER OF GOLD ON EAGLE RIVER IN VANCOUVER**  
W. Grady Says He Did Not Prospect as Much as He Wished  
Autumn Ended His Work; Looks For a Rush in the Spring  
Vancouver, Oct. 9.—"I do not want to see the gold find on Eagle River exaggerated. I did not have time to give the territory as thorough a prospecting as I would have liked. The area is practically closed now and the true worth of the placers there can not be known till next spring. The freezeup came on too early for any great amount of work to be done."  
This was the statement of William Grady, discoverer of the latest diggings in the North that have caused a stampede that bids fair to rival the great Klondike rush. Mr. Grady arrived in Vancouver on board the steamer Princess Alice this morning. He is very reticent about his discovery and displays anxiety over the possibility that through his first report of his find there should follow any hardships for those who join in the rush which he predicts will take place in the spring.

**NEWS IN BRIEF**  
Premier Mackenzie King will be unable to address the Canadian Club here October 17 as planned, officials of the club announce.  
The regular monthly meeting of the Veterans of France will take place this evening at 8 o'clock. The executive meeting will take place at 7.30.  
The annual meeting and election of officers of the Market Jockey Parent-Teacher Association will take place on Friday at 3 p.m. in the school auditorium.  
There will be an organ recital at St. John's Church next Monday evening, commencing at 8 o'clock, at which the organist, G. Jennings Burnett, will be assisted by Miss Wise, Miss Carter, Miss Moore and Mrs. De Gruchy.  
The silver tea which was to have been held at the home of Mrs. Dowker, Mount Tomlin, on Saturday in aid of the funds of the Victoria Harry Besant Bazaar Chapter I. O.E.E. has been unavoidably postponed.  
Driven in fright through the streets of the city, two quail flew into the saddle store of F. Norris Limited, Government Street, on Monday and dashed themselves against the counter. They were later released in Beacon Hill Park little the worse for their strange encounter.  
Writing from 217 Fourth Avenue West, Palm Beach, Florida, Captain P. D. C. Ives writes to the Victoria Island Publishing Bureau, stating that he will make his home in Victoria. "I wish," he writes, "I had known more about Victoria before I came to this sub-tropical swamp."  
Closely manacled and under guard of three Immigration officers Chow Sang and Lum Wah yesterday a charge in city police court yesterday morning of attempting to enter Canada by means of false certificates. T. M. Miller appeared for the accused who were remanded until Monday for hearing.  
The orchestra of St. Andrew's Presbyterian Church will resume its rehearsals at the church schoolroom tomorrow night at 8 o'clock under the leadership of Jesse A. Longfield. All members and any other musicians who would like to join the orchestra are invited to attend.  
Frank Bland, charged on remand with retaining in his possession 350 pounds of brass, knowing it to be stolen, was further remanded in city police court to-day for hearing on Saturday next. W. C. Morsey appears for the accused, who elected summary trial before Magistrate Jay.  
Raymond Dibley, charged on remand with a serious offence, was further remanded by Magistrate Jay in the city police court to-day for hearing on Thursday in next week. R. C. Lowe appears for the defence and J. C. Elliott for the private prosecution. The complainant, stated Mr. Elliott, was unable to attend through a temporary indisposition.  
The "military 500" and dance held by the Sons of Canada on Tuesday night was much enjoyed by those attending. The winners were declared as follows: Mrs. Black, Mrs. Edwards, Messrs. Wilson and Willows; Mrs. Jarvis, Mrs. Grant, Messrs. Tucker and Roberts; Mrs. Wolfson, Mrs. Fulton, Messrs. Hogan and Francis.  
Tuesday next has been fixed as the date on which the annual general meeting of the Esquimalt Liberal Association will take place. Retiring officers will present their reports on the activities of the past year, and arrangements for the ensuing year will be elected. All members of the association in good standing are eligible to attend and vote.  
The School Board last night gave N. Shillito a contract to transfer the children from Cadboro Bay district to Cedar Hill School, the arrangement being from month to month, at a fee of \$35 per month. The service hitherto has been one operated by L. Sturgis, which has been greatly overcrowded since the schools reopened last September.  
Friday afternoon will be the last opportunity for Sanich taxpayers to settle their municipal accounts at the amount of the tax bills, this year the additional penalty of fifteen per cent. is imposed in one sum, and must be added to any amount which does not arrive at the municipal treasury at Royal Oak before 5 o'clock, closing time, on Friday next, October 10.  
A system which it is hoped will eliminate home work was passed upon by the School Trustees as far as George Jay School was concerned last night. Inspector Deane reported that 103 entrance pupils had voted for a period of an hour's supervised study after school hours. The trustees agreed to the plan, which was given a two or three months trial.  
The inmates of the Home for Aged Men were entertained at a most enjoyable programme last evening, arranged by Miss Scowcroft, Faversham, being received with the warmest approbation. Vocal numbers were contributed by Miss Scowcroft, Mrs. Wright, Mrs. Scowcroft, Mrs. E. C. Chan, piano solos; Miss Scowcroft and Miss Davidson; violin solos by Miss Anita Holt. At the conclusion the ladies served delicious refreshments.  
About thirty local Orangemen were out to Saanich on the occasion of the visit by the Right Worshipful Bro. Jago, the Provincial Grand Organizer, who, on the invitation of the master, Bro. Sterling, put on the initiatory degree, conferring it upon the candidate, Bro. Gray. After the ceremony R. W. Bro. Jago told of progress made by the service at the Dominion, and the United States. The visitors were entertained after the meeting.

**William M. Browne of the Provincial Grazing Commissioner's staff, only son of Surgeon-General William R. Browne, has been advised of his father's death on September 16 at Cham, La Roche, near Montmout, Vaud, Switzerland. Born May 23, 1850, he joined the Indian Medical Service in 1873, was Professor of Pathology and Lecturer in Surgery 1889, became a Fellow of Madras University in 1892, Principal of the Medical College in 1901, principal of the Victoria Hospital district in 1903 and honorary surgeon to Viceroy in 1905. He served in Rumpia 1878-1880. Besides his son he leaves a widow and two daughters.**  
The Prince of Wales, during his short holiday visit here, evinced keen interest in the Victoria Boy Scouts. Prior to his departure, he sent for the Association's British Columbia president, R. Ross Sutherland, and conferred with him regarding scouting in British Columbia. He also offered any assistance which lay in his power to help forward the association throughout the Dominion. His Royal Highness is Chief Scout for Wales and a member of the Imperial Headquarters of the Association, is a very active supporter of the Boy Scout movement, and was knighted by the Emperor of Germany at Wembley, he spent two days in camp as a Scout in the midst of 12,000 brother Scouts from all parts of the empire.  
The first of the Civil Service Winter season dances will take place at the Victoria Hotel on October 29. With characteristic up-to-the-minute thoroughness no detail for the enjoyment of the patrons has been overlooked by the dance committee, and they have been fortunate in securing the services of A. Prescott and his Royal Victoria symphony dance orchestra for the occasion. The dance will be noteworthy inasmuch as it will accordingly mark the debut at dances of this aggregation of Victoria musicians, whose performances during the past weeks have charmed and enthralled hundreds of patrons. The dance will continue from 9 to 11. Seating is optional, and tickets, which are strictly limited in number to 300, are now obtainable from A. M. D. auctioneer, Landis, 1000 Douglas Street, through any Provincial Civil Servant.

**OBITUARY**  
The funeral of Matthew O'Brien, who passed away on Saturday last at St. Joseph's Hospital, will take place to-morrow morning, leaving the R.C. Funeral Chapel at 9.15 and proceeding to St. Andrew's Cathedral, where a service will be held at 9.30. The remains will be laid to rest in Royal Oak cemetery, where a service will be held at 10.30. Mr. O'Brien was born in Washington, D.C., seventy-two years ago, and for many years was an employee of the C.P.R.  
The funeral of the late George Lively Wood, who met with accidental death on Monday, took place this morning. The cortege left the R.C. Funeral Chapel at 8.45, proceeding to St. Andrew's Cathedral, where Rev. Father O'Brien solemnized Mass and conducted the funeral service. Rev. Father O'Brien was assisted by Messrs. Wood and H. McGillivray.  
Funeral service for the late Mrs. Elizabeth H. Hall was held yesterday afternoon at 3.30 in the R.C. Funeral Chapel by the Rev. Father O'Brien. The service was held in the presence of a large gathering of friends and many laymen. The hymns sung were "The Sands of Time Are Sinking" and "The Sands of Time Are Sinking." The following acted as pallbearers: Messrs. T. M. Bird, J. L. Leigh, C. H. Thomas, and J. DeWille. Service at the graveside was conducted by the Rev. R. Hibbert. The interment was in the family plot.

Clearance Papers Issued; Airship Put Through Short Trial Flight  
Friedrichshafen, Germany, Oct. 9.—John E. Kohl, United States consul at Stuttgart, arrived here to-day and arranged for clearance papers for the Zeppelin for the United States Government, is expected to start on his flight to Lakehurst, N.J., Friday or Saturday, providing the Atlantic weather is favorable.  
The dirigible will make a short trial flight to-day to test the motor, which have been subjected to alteration.  
Dr. Hugo Eckender, director of the Zeppelin Company, in charge, hopes to make the start for the United States the latter part of the week. Most of the crew, many of whom are former navy men and superstitious, are not enthusiastic about starting on Friday, and say Saturday suits them much better.

**MOVE OF JAPANESE OPPOSED BY B.C.**  
Hon. H. H. Stevens Says People Against League of Nations Protocol  
Ottawa, Oct. 9.—British Columbia can be considered as a unit in opposition to the amendment to the protocol brought down by the Japanese at the session of the League of Nations Assembly at Geneva, declared Hon. H. H. Stevens, M.P., Vancouver Centre, in an interview here last night. The amendment, he claimed, was the beginning of an Oriental attempt to lay the basis for a new international law, International law, he maintained, recognized the right of any nation to decide its domestic policy and determine who should and who should not be welcomed within the borders of the land.  
The plan of the Japanese, it appeared, altered this completely and had raised a "very dangerous situation."

**EDMONTON GIVES PREMIER WELCOME**  
Edmonton, Oct. 9.—Literally mobbed by the enthusiastic citizens who swarmed around him on his arrival at the Canadian National Railway depot here at 2.30 this afternoon, Premier King received a welcome that left no doubt of its warmth. The Premier looked fit as he stepped down to the eager throng of citizens, and for several minutes he was almost lost to view amid the surging crowd who desired to shake hands with him. The Premier will address a Liberal rally at 9.30 p.m., and a mass meeting of citizens on Friday night.

**TIMBER ROYALTIES ARE DISCUSSED**  
Vancouver, Oct. 9.—"Just a general discussion of the whole royalty question," was the explanation of this morning's meeting with a committee of the Timber Royalties Council given by Hon. T. D. Pattullo at noon after the committee had left his room in the courthouse.  
The Timber Royalty Act has to be amended, and the extent and kind of the amendments present one of the knottiest problems with which the Government and the Legislature will have to grapple.  
A committee consisting of the lumbermen, including William McNeill, Eric Hamber, Phil Wilson, L. A. Andrews, secretary of the Loggers' Association, and others held a two-hour conference with Mr. Pattullo this morning, but the Minister stated no conclusions were reached. Further conferences are to be held when the Minister returns from the north. He will leave to-morrow noon to meet Premier King and his colleagues at Prince Rupert.

## "RIDERS UP" IS NEW PRODUCTION AT COLUMBIA THEATRE

When "Riders Up," Universal all-star picture, shown in the Columbia Theatre commencing today, was pronounced ready for distribution, Irving Cummings, the director, completed his fourth straight production for Universal. The other three are "Stolen Secrets," "The Dancing Cheat," and "Pools Highway."

This picture was made with an all-star cast. Creighton Hale, George Cooper, Robert Brower, Ethel Shannon and Kate Price have principal roles; and Edith York, Charlotte Stevens and Harry Mann have parts of vital but of lesser importance.

The screen story was adapted from the Red Book Magazine story, "When Johnny Comes Marching Home," by Gerald Beaumont, acclaimed one of the best fiction writers dealing with sport. It is a story of race track life and was filmed in Tin Juana, the horses, jockeys and many others being actually employed in the capacities shown on the screen.

The race track tout's experiences are the basis of the story, and he is pictured as the majority of them really are: hardworking, honest, according to their code, and ever ready to do a good turn to the brother who is down on his luck. They give

advice according to their knowledge and convictions, except when superstition impels them to abandon reason for a "hunch."

### DANCING WILL BE BIG FEATURE OF MUSICAL COMEDY

Beautiful dancing is to be one of the features of the musical comedy, "The Isle of Spice," which will open for a week's engagement at the Royal, commencing on Monday next. Dazzling Eastern costumes away to the soft strains of the dreamy music so peculiar to the land of the Caliphs will lend a color that no other type of play can boast of. A strong cast is handling the dialogue which bristles with side-splitting comedy and songs. The box office will open to-morrow morning at 10 o'clock.

## NEGATIVE REPORT BECOMES DORIS KEANE'S TALISMAN

Doris Keane has no superstitions, neither does she believe in charms, but she always carried around with her a bit of paper, neatly framed, on which is written:

"This is not a good play—C. F." The "C. F." is the initial signature of Charles Frohman. It was under the management of Mr. Frohman that Miss Keane played on the stage for a long time, and it was to him that the play "Romance," by Edward Sheldon, was first submitted. He wrote that comment over the play after he read it and later it came to Miss Keane's attention.

She liked the piece and discussed its possibilities with her managers and Mr. Sheldon. It was produced and it was in that piece that she won her greatest success; a success that has lasted from her first-night performance, and has made her the leading emotional actress of the American stage.

This is the story from which the United Artists' production for the screen has been made and which is being shown at the Playhouse Theatre. For a season it was the rage in Chicago, then a season in Boston, and after that it was taken to London, where it played nearly three years.

And all that success on the criticism that "this is not a good play." One never knows these days. Miss Keane says, and I keep that slip of paper in my dressing room always. It's my good talisman.

## PHOTOPLAY OPENS WITH THRILL ON BOARD FERRYBOAT

The photoplay, "Drums of Jeopardy," opens with a thrill on board a ferryboat in New York harbor. Two figures stealthily creeping toward the unsuspecting figure at the rail gazing across the water at the big city's glittering lights, an attack, a fight for life, the escape, a beautiful girl in a limousine, and the story is over.

## VIRGINIA VALLI DISPROVES EVERY ACTRESS SMOKES

Virginia Valli, star of many big Universal-Jewel features, is passionately fond of hiking. Often during the Autumn evenings while her company was in location in Northern California, where exterior scenes were filmed for her latest production, "The Signal Tower," she would go for long walks along the shore of the little Noyo River, noted for the beauty of its secluded shores.

The beauty of the giant redwood trees, and the brown and yellow leaves of the maples appealed to her. One evening as she was walking along the narrow trail she met an old man, a native of that country, so old that his face looked like a baked apple. At least so Miss Valli related.

He showed no inclination to step aside to let her pass, yet his attitude was of distinct friendliness. He removed a corncob pipe from a gap in his whiskers and emitted a squeaky greeting.

"Howdy, miss? Gotta match?"

"I beg your pardon," Miss Valli said.

"I reckon that means you ain't got any. I heard all you movie actresses smoked."

"The Signal Tower" is a screen version of Wadsworth Camp's famous magazine story, which originally ran in the Dominion Theatre. It was filmed under the direction of Clarence L. Brown, who made "The Acquittal."

An unusually strong supporting cast includes Wallace Berry, Rock-Hill Fellows, Frankie Darro, Dot Farley, James O. Barrows and J. Farrell McDonald.

### Desserts for Children

**Cup Custard**

1/4 cup St. Charles Milk.  
1/4 cup water.  
1 egg, beaten.  
2 tablespoons sugar.  
1/4 saltspoon salt.  
Nutmeg and vanilla.

Dilute the St. Charles milk with the water and bring to a scalding point. Add sugar and salt to the beaten egg. Pour over them gradually the scalded milk, flavor to taste, pour in custard cups. Place in a deep pan and pour boiling water around until it nearly reaches top of cups. Bake in moderate oven about twenty minutes.

**Cream Tapioca**

1/4 cup St. Charles Milk.  
1/4 cup water.  
1/2 tab. corn starch.  
2 tab. sugar.  
1/4 saltspoon of salt.  
1 egg, beaten separately.  
Flavoring.

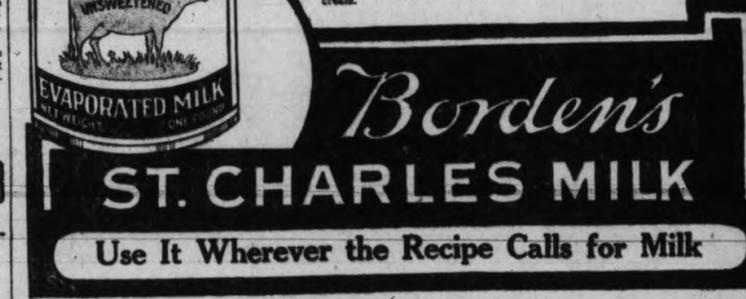

Dilute milk with water and bring to scalding point in a double boiler. Mix tapioca, sugar and salt. Add gradually to the hot milk and cook twenty minutes. Add the yolk of egg, cook three minutes longer. Remove from the fire and add lightly the white of egg. Flavor to taste. Serve plain or with fresh fruit.

**Cornstarch Pudding**

1/4 cup St. Charles Milk.  
1/4 cup water.  
1/2 tab. corn starch.  
2 tab. sugar.  
1 egg white, beaten stiff.  
Pinch of salt.  
Vanilla.

Dilute milk with the water and scald in a double boiler. Mix corn starch, sugar and salt thoroughly; add slowly to the scalded milk, stirring constantly until mixture thickens. Cook fifteen minutes, stirring occasionally. Remove from the fire and while hot fold in lightly and thoroughly the egg white. Add flavoring. Turn into cups or molds. Chill, serve with a soft custard, minced fresh fruit or whipped cream.

perance people are said to have a card up their sleeves in the Canada Temperance Act. This is a Federal measure which, when endorsed by a majority vote in any province, prohibits importation into that province of beer or spirituous liquors. A vote on the Canada Temperance Act was taken in Ontario in the Spring of 1921 and was endorsed by a vote of 532,556 to 372,682. This bar to importation into the province will still apply, some of the "dry" forces claim, even if the Provincial Government attempts to introduce government control. Neither side, however, has yet raised the question in the present campaign of the permanency of the Canada Temperance Act.

## TOM MIX FIRES HEARTS OF ALL WITHIN RANGE

"Ready—aim—fire!" called Tom Mix.

And Marian Nixon, his little leading lady in "The Last of the Duenes," simply fired the hearts of everyone within range. The deadly aim of this pair—Tom, who is so well known as William Fox star, and Marian, who has been cavorting in Fox pictures all season—is apparent in the accompanying picture. They've got the "lead" on you just as surely as they have it on every motion picture audience whose pleasure it is to behold them on the screen.

Marian has always had a hankering in her girlish heart that she'd like to be a marksmen—or should we say markswoman? Tom just naturally has to gratify her wish.

The first lesson was not what might be called a howling success. Marian's small hand had some difficulty reaching the trigger of one of Tom's 45's, and the result was not so good. Hitting the target at all was the exception rather than the rule, and the spectators soon learned that the place for them was directly behind the little shooter.

Then Tom searched through his varied assortment of guns until he found one of smaller calibre and Marian fired a great deal better.

Now Marian, chaps and all, is quite at home popping off bulletseyes

## Ontario Liquor Vote October 23

Outcome of Government Control and Prohibition Test is Awaited

Toronto, Oct. 9 (Canadian Press)—Ontario is in the throes of another battle over the liquor issue. October 23 being the date for the taking of the plebiscite on the question of prohibition or repeal of the present prohibition law known as the Ontario Temperance Act and the substitution of government control of the sale of spirituous liquors for beverage purposes. It is a straight issue between prohibition and government control, only two questions being before the voters. They are:

1.—Are you in favor of the continuation of the Ontario Temperance Act?

2.—Are you in favor of the sale of a beverage of beer and spirituous liquors in sealed packages under government control?

The voter will place an X after the question he desires to answer in the affirmative. A mark after both questions will spoil the ballot. The questions seemed to call for the answer, "yes" or "no" after each and the first draft of the ballot contemplated that form of verdict, but following a conference called by Premier Ferguson and attended by representatives of both "wets" and "drys," it was announced that the task of the voter had been reduced to the mere placing of a cross after one of the questions.

## "We have used Zam-Buk with remarkable success"

"WHEN I happened an injury to my left foot," says Mr. Edward Whiteman, of 463, Notre Dame St., Lachine, Que., "it was painful enough, but didn't seem to call for special attention. A few days later, however, trouble began which I tried to check with poultices. But the sore got worse, the tendons became affected, and I could scarcely move about.

"PAIN & INFLAMMATION WAS DREADFUL until I was persuaded to put Zam-Buk on to the foot. I renewed the dressings at regular intervals, and gave the treatment every chance by resting the foot as much as I could. Zam-Buk drew soreness and impurity out of the wound in a surprising way and caused inflammation to quickly disappear. As a result, the foot went on steadily mending until perfectly healed.

"IN MY WIFE'S CASE poison and lancing combined had caused a painful wound that wouldn't heal. So without telling the doctor she set her mind upon Zam-Buk. Sure enough, healing commenced soon after the balm was applied. Within a few days my wife could wear a shoe and the foot was soon made sound and strong again. In future we shall always keep Zam-Buk in the house. It really is wonderful."

### NEGRO IN CHICAGO CLUBBED TO DEATH

#### Crowd Killed Colored Man Who Attempted to Attack Two White Girls

Chicago, Oct. 8.—William Bell, a negro, was clubbed to death here last night with a baseball bat after he was alleged to have attempted to attack two white girls in the Jewish quarter of the city. Otto Epstein, a wine dealer, was held by authorities to-day in connection with the slaying.

One of the first men who joined the crowd carried the bat with which the killing was done.

More than a hundred men and boys surrounded the negro, who made frantic efforts to break through the crowd, which kicked and struck him down. He was dying when a squad of policemen arrived.

#### CROWD OF FOREIGNERS

The crowd was composed mostly of foreigners living in the neighborhood, where feeling has been tense because of the influx of negroes into the district. It dispersed after the police arrived and the authorities expect no recurrence of the trouble.

The frenzy of the crowd was increased during the attack on the negro by the cries of his intended victim, a white foreign girl living in the neighborhood, who said her assailant had threatened her with death if she screamed.

#### CAREFUL

The cake had been passed to everyone at the table but Bobbie, three and one-half years old.

Bobbie—I'll take a piece of cake, please.

Mother—No, dear, banana cake is too heavy for little boys.

Bobbie (after several seconds of thought)—Well, I'll use both hands.

### Welsh Reunion Very Successful

The Cymrodorion Society held a reunion meeting Wednesday evening in Harmony Hall, a large gathering being present. Rev. T. Griffiths of Sidney delighted his audience with a talk on the great humor of the Welsh people. Rev. Ralph C. Jones gave some humorous Welsh stories and entertained with his performing dogs. The program was an excellent one, as follows: Welsh solo, Mrs. Williams; Welsh recitation, Miss Mary E. Davies; violin solos, Mr. Moss; duet, Misses J. Jones and M. Thomas; piano solo, Mrs. J. Griffiths; Sidney; Welsh solo, Miss Lewis; Welsh duet, Mrs. Williams and Mrs. Lewis; piano solo, Welsh selections, Miss Bird, L.R.C.M.; dialogue in Welsh and in costume, Misses Lewis and Thomas. The president, J. M. Thomas, occupied the chair.

### MUSICAL NOTES

By GEORGE J. DYKE

It is not generally known, perhaps, but visits of distinguished artists to Australia, Japan, China, Java, the Philippines and India for the season 1925-26 are arranged for more than a year ahead of time.

A new publication called "Musical Life and Arts" has made its debut at Winnipeg. Its first issue is dated September 15, and its slogan is "A Magazine for Intelligent People." It is an exceedingly bright paper, and its main features are articles by well-known musicians (an article by Percy Grainger is promised for the October issue); Theme and Variations Notes; the Organ World; the music doings of the chief cities of East and West; Victoria is represented by the writer; Our Gallery; a Children's Corner; an unusually entertaining and educational section; Book Den Brownings; and in the Ateller, in which appears an article on Canadian painters in London. Sample copies can be seen at the music store of Fletcher Brothers.

Concert-giving everywhere has become a vast industry, and from modest and unorganized beginnings it has developed to proportions which give it a place in the realm of serious and permanent human effort.

As a result of the world war there are to-day a number of new-born nations in Europe and Asia whose musical development is little known outside their boundaries. Among those who are already developing a national music are the Poles, the Finns, the Czechoslovaks, the Jugoslavs, the Letts, the Armenians, the Estonians, the Ukrainians, the Georgians, the Lithuanians and the Crimean Tartars.

Finck in his book "Grieg—His Music," says: "A boy who is destined to become a great genius can easily teach himself, but nothing can atone for the lack of that musical nutriment in childhood and youth which builds the very tissues of that part of the brain which is set aside for musical impressions."

The great violinist, Ysaie, once said: "Some music there is that can neither be taught or learned."

Some there are who agree with us that there are melodies and changing rhythms as fragrant as banks of violets, and as supremely beautiful as the rolling cloud, the arching sky and the restless sea.

Anent the note on some English folk-songs last week a reader would like to know more about these lovely old songs. These are issued in a publication called "Folk Song Society Journal," which, however, is only given to those who become members of the society. They are published in seven volumes, and contain a great variety of country-wide songs.

The great master, Beethoven, wrote only one opera; this is "Fidelio," and although never a great success during his life, it really foreshadowed the development of the modern music drama. There is a beautiful male chorus in this opera which you will find included in the repertoire of our Arion Club.

Another reader of these notes is quite right. The famous, but misnamed "Largo" is found in Handel's opera "Xerxes." The great air commences immediately the curtain rises in the first act and is one of the finest ever written. It is sung by King Xerxes, who, in the tortures of love, has flung himself down for a moment's rest in the noonday heat under the branches of the palm-tree.

It is said that one of the most nervous publics in the world is the audience at the Metropolitan Opera House, New York, on a gala night of grand opera.

Edwin H. Lemare, one of the greatest organists in America, was born in England of a musical family. He was a famous civic organist at Chattanooga, Tenn.

There has been a great falling-off in attendances during the past twelve months or more in cinema houses throughout the United States. During 1915-16 the attendances averaged 20,000,000 a day, but 1923-24 has seen this huge number dwindle to 5,000,000.

Fifty years ago Sir Henry Irving made his big hit in "The Bells." What do you think the country-folk of Wales elected to sing when they went to Wembley to take part in the Welsh Festival held there? It was nothing less than Bach's colossal "Mass in B Minor," the most difficult cult choral work ever written. This was sung by a choral society from Carmarthenshire, and it is said that those who heard its rendition were thrilled through and through.

The Pavilion, Tivoli and Oxford music-halls once upon a time drew all London and all London's visitors. At these famous halls, together with the Emerald and Alhambra, a visitor could always find his friend, such was the habit of touring the "syndicate," as it was then called, most evenings of the week.

Another publication that would meet with a most favorable reception at our public library is S. J. Adair Fitzgerald's "The Story of the Savoy Opera" (Gilbert and Sullivan), published by Stanley Paul & Co. Reference has been made from time to time in the music columns of this paper to the custom of beginning concerts after the advertised hour of their commencement. Announcement of 8.15 or 8.30 should mean 8.15 or 8.30 to all concerned, but the writer has known some concerts begin their opening number at well-nigh 9 o'clock. Now the way to remedy this evil is to remedy it, and if managers begin their concerts on time, whether the public is there or not, it is very probable that the habit of tardiness would in a very short time be broken. If the audience knows that certain concerts do not begin on time

can one really blame them for not coming some minutes before the hour of the concert's beginning? It is manifestly unfair to those who arrive on time to make them wait for the tardy ones, who after all are tardy only because they know the concert will begin late. Then on the eve of the Winter music season let concert managers and public get together and be of one mind as far as the hour of the commencement of the programme is concerned.

The bed-rock of all music is rhythm. Primitive instincts lie with rhythmic appeal, which became enforced in the different tribal con-

glomeration of early man, which soon found vent in the accentuations and exaggerated emphasis as employed in their weird instruments, and in the peculiar methods of their musical productions. The war has shown how the untamed instincts lie with us. It was noticed that music of the extreme rhythmic order, the jazz par-ticularly, either in song or with instrument, makes an instant appeal to the uncultured. To the untrained ear it at once makes a stimulating effect, and its different expressions are the more observed by the superficial, the shallow. To the musician trained along the lines of form and of con-

vention many of the jazz harmonies are to him comparable to a com-pound of mixed pickles and jam. But jazz is being tamed. It is becoming more polite. It is even getting into exclusive and cultured society. In the best American bands noise is less prominent than formerly, while in the best English bands the jazz is seldom included in their repertoires. The wonderful and awe-inspiring noises from the drum "section" are less obtrusive. The "kitchen furniture" now fits with the other instruments of the band; its harmonies are used in a subtler form, and the commander of the baton now settles

the more quietly to the exigencies of the composition and the ramifications of its production.

As far as the present day public school boy and girl are concerned, a new music era has now been created for them. With the sanction of both Victoria and Esquimalt Board of School Trustees, the organization of violin classes in the different schools

is now a fait accompli. Already much interest has been taken by the teachers, parents and pupils in the scheme, and with careful instruction, steady application and sympathetic encouragement all round, the nucleus of a future community orchestra will soon be in the making. Quebec school began violin classes two years ago, and splendid work is being accomplished there, and in Vancouver, where similar classes commenced last Winter, over 300 students are taking these classes.

Tourist: "Bother! We've climbed to the top of this mountain to see the view and we've forgotten the glasses." Scottish Guide: "Och! Never mind, there's nobody about. We can drink out of the bottle."

### That Kruschen Feeling

They didn't bargain for Grandpa.

"Great strength rings the bell, and you get your money back." But now they're wishing they hadn't egged the old boy on.

He always gets his full money's worth in life, because he's always in the high spirits that are the reward of over-flowing health.

What keeps him so fit and jolly? It's no secret. Each day he tips into his breakfast cup of coffee or tea just as much of the magic powder as will lie on a ten cent piece—the little tasteless dose of Kruschen that means so much.

He knows that good health depends mainly on the clearness and vitality of the blood stream. He knows that his system needs something to counteract the ill-effects of insufficient fresh air and exercise, of worry, overwork, stress of diet, and will stimulate the liver and kidneys to a proper performance of their duty, clear all impurities from the body, and send new, refreshed blood coursing through the veins.

He knows, too, that that "something" is Kruschen Salts.

"That Kruschen feeling" makes true sportmen of us all whether at work or at play. There are 160 morning "pinches" in a 75c bottle—nearly six months' supply. Get a bottle at once and start to-morrow. You take your pleasures gladly when you take the daily dimeful.

Grandpa, all his muscles steeling, knoaks them with "that Kruschen feeling!"

### Prediction Made

Physicians Will Conquer Goitre

Cleveland, O., Oct. 9.—In an address here last night Prof. J. J. McLeod of Toronto, co-discoverer of insulin for the treatment of diabetes, predicted complete extermination of goitre within a very few years as a result of research work being carried on in the Cushing Laboratory of Western Reserve University Medical Schools.

## WORN OUT MEN AND WOMEN SOON REGAIN STRENGTH

The nervous system is the vital force of your body; the force that gives energy to every organ and every muscle. So great is the power of the nerves that a tremendous shock, such as fear, may cause death.

A lesser nerve shock will pale the cheeks, make the knees tremble, cause the heart to beat wildly or almost paralyze breathing.

To keep our vitality and strength we must nourish the nervous system. When we restore lost nerve power we quickly regain lost strength.

Nervous, exhausted men and women can soon regain their nerve force and as they re-build their nerves they see the signs of returning vigor.

Wincarnis gives to the nerves the very elements they must have to be nourished back to energy. For fifty years this nerve restorative has reinvigorated those who were weak, thin, pale and so discouraged that life seemed to hold no real happiness.

If you need more nerve power, go to your drugist to-day and begin the safe Wincarnis treatment. A sixteen-ounce bottle, which is a fourteen-day Wincarnis treatment, is sold by all leading drugists for \$1.50. Wincarnis is so effective that only three table-spoonfuls a day need be taken.

Try Wincarnis and see the difference just a few days will bring.

### GIRLS VOTE TO SING INSTEAD OF PLAY BASKETBALL

Number of Choiristers Exceeds Athletes at Victoria High Schools

Sixty-two Boys Would Play Rugby and 440 Prefer Tennis

By a vote of 225 to 133 the girls' vocalists triumphed over the athletic girls at the Victoria High School on the result of a questionnaire. Grass hockey only found eighty-eight supporters. Fifteen boys voted with the choiristers with the result that a request was before the School trustees last evening for a \$300 expenditure for an instructor and music.

The board compromised with a vote of 410 on the grounds that the choiristers' efforts should be classed as a school activity and put it up to the pupils to support them. The success of the first concert will largely govern future activities of the singers. High commendation of previous High School concerts was given by trustees but Trustee Smith found support for his argument that choral work was an addition to ordinary school schedule and something of value to the students for which they should be prepared to stand the expense.

**THE BOYS' CHOICE**

Sixty-two High School boys have voted for rugby as part of the school sports programme on a questionnaire that has been circulated, forty-nine for cadet work, 138 for physical training, sixty-six for track and field, 134 for soccer football, 217 for basketball and 440 for tennis.

In view of the popularity of tennis the board were asked to authorize two extra tennis courts bringing the number to five, but decided they could not make the expenditure. They agreed, however, to an outdoor basketball court.

### PREMIER TRAVELING WEST TO EDMONTON

King Spoke in Prince Albert Last Night; Favors Two-Party System

Asks Western Canada to Consider Position; Speeches By Other Ministers

Prince Albert, Sask., Oct. 8.—After addressing an audience of 3,000 persons drawn from almost every part of Northern Saskatchewan here last night, Premier King left for Edmonton, where he and the Ministers accompanying him are to speak Friday evening.

In his speech here Premier King asked the West seriously to consider the position of the Liberal Party and its attitude towards the West, with its restricted support from the prairies.

Any blue-blooded statesman was prepared to go down fighting for his principles, but no man would allow himself to be forced into action by a group bludgeon, he declared.

The history of the Liberal party had shown that its railway, immigration and tariff policies were all shaped in the interests of the West. The party had gone down to defeat in 1911 in its attempt to provide better markets for the Western products.

**TWO-PARTY SYSTEM**

The only hope for the successful administration of the country lay in

Amidst the excitement which prevailed during the division, Liberal cheers went up from the Ministerial benches whenever a prominent Liberal entered the House from the lobby. The entrance of Right Hon. H. H. Asquith, Liberal leader, was the signal for cheers from the Liberals. The Conservatives gave their leader, Right Hon. Stanley Baldwin, an ovation, but the greatest demonstration came when Premier MacDonald rose after the vote had been taken, to adjourn the House. His supporters cheered loudly and long, many jumping to their feet to wave their order papers and shout again.

**BIG CROWD THERE**

A final round of cheers followed the Premier as he left the chamber. The

### SUPPORTERS CHEERED PREMIER MACDONALD

members filed out amid a babel of excited talk. Big crowds had assembled outside and the Ministers and members were cheered as they left the House.

It is rumored that at their meeting, which was called at the conclusion of ex-Premier Asquith's speech yesterday, opinion was sharply divided among members of the Ministry with regard to Asquith's offer of a committee of inquiry without Liberal representation. It is understood the Minister of Health, J. Wheatley, led a group of Ministers who were firmly opposed to this suggestion.

# GLORIA GOULD

tells why the care of the skin is vital

"THE WOMEN of the younger set today, strenuous from noon to night and often on to dawn, have simply got to look fresh and lovely, none-the-less.

They never permit the strain of many engagements or the attacks of wind and sun to mar the smooth delicacy of their complexions. Fatigue and exposure can leave no trace on the skin that is cared for by Pond's Two Creams. They are really remarkable."

*Gloria Gould*

ALTHOUGH Gloria Gould has recently become Mrs. Gloria Gould Bishop, she will still always be, to scores of her friends, to thousands who know her only by her famous name—just Gloria Gould.

The youngest—and many think the loveliest—daughter of one of America's oldest families of great wealth, she commands a unique position in New York's exclusive younger set.

It was in the cream-and-blue drawing room of her sun-flooded apartment in New York's smart East Side, that she consented to give me her views on the care of the skin.

As she sat chatting before me, charming in the quaintness of a panniered robe d' style, the simple friendliness of her manner delighted me. But what impressed me more was her vivacious, her spontaneous enthusiasm. No wonder, I thought, that when Gloria Gould entertains everybody is caught up in the happy mood created by her joyfulness and humor. And when she takes a lesson in singing, in fencing or in Russian dancing—which she adores—she does it with her whole heart.

"She's the most alive creature," I said to myself. "Even her ivory white skin seems to breathe life." And that plunged me into the interview.

Every woman should guard her beauty

"Mrs. Bishop," I began, "what in your opinion is the most important factor in a woman's looks?"

"There are three things," prompted Gloria Gould, "which I think essential to the woman who wants to keep an impor-

is the daughter of one of the oldest families of great wealth in the United States. Her ivory-white skin exquisitely cared for charmingly sets off dark hair and sparkling eyes.

tant place in the social world. Fine eyes, white teeth and a lovely skin. The latter, by far the most important of the three, luckily, any woman may possess, if only she'll take the right care.

"With the society woman," she continued, "the care of the skin is vital—a duty. But every woman, no matter what her interests, owes it to herself, to her family and friends, to make her appearance express the happiness that's within her. How can it, if her skin is not clear, not glowing with healthful bloom?"

Then she spoke of the Two Famous Creams Pond's Laboratories have perfected, whose daily use is such a simple way to guard a lovely skin. Together they provide the balanced care every normal skin should have, a Rejuvenating Cleansing and a Delicate Finish and Protection.

Days and nights crowded with good times bring little lines and dark shadows into very young faces unless care is taken to prevent them. And this is why these younger women

—the women of Gloria Gould's set, of the gay younger set everywhere—are turning to Pond's Method of skin care.

**How the younger set does it**

THE first step in the Pond's Method followed by the lovely younger women of society is a thorough daily cleansing of the skin with Pond's Cold Cream. This should come after exposure, at the end of a long day or just before retiring.

Smooth the cream over the face and neck—let its pure oil delve down into the pores and bring up the dust and grime, the powder and rouge that clog them. Wipe it off now, with a soft cloth and instead of being shocked, just rejoice at the black look it gives you! Repeat the process, finishing with a dash of cold water or a brisk rub with a bit of ice.

Your peony-pink skin will make you think your face has never been really clean before! How relaxed it feels, how fresh and invigorated! Supple and flexible now, it has tone and firmness, too, just glows all over with new health!

The second step in the Pond's Method is to smooth over your newly cleansed face a light film of Pond's Vanishing Cream. This you must always do before powdering, never forgetting to do it before going out into the wind, sun, dust or cold.

The purpose of this delicate cream is four-fold—it protects the skin from the weather, gives it a soft, smooth finish and holds rouge and powder evenly and long. And used between the cleansings with Pond's Cold Cream, it freshens and rests the skin, too.

Like Gloria Gould and the other smart young women of the exclusive social set everywhere, you can have an exquisite complexion. Begin today with Pond's Two Creams. At once you'll notice a new freshness, a new smoothness, a lovely lustre. And with Gloria Gould you'll agree that Pond's Two Creams "are really remarkable!" The Pond's Extract Company.

On Gloria Gould's French dressing-table, proof of the perfect care she gives her skin, stand Pond's Two Creams, used by Society women everywhere to keep their complexions exquisite despite the strain of social life.

Pond's Two Creams—they exquisitely cleanse and protect the most delicate skin.

Rum Men of Seattle Make Pact With Men of Vancouver

Vancouver, Oct. 9.—Two of the leading rum runners of Seattle spent the last week-end in this city conferring with representatives of local liquor exporting firms and owners of boats. It is stated, and as a result a pact has been formed to kill on sight three men whom the rum runners appear to be convinced were the men who murdered W. S. Gillis and his eighteen-year-old son William.

Gillis and his son were in the liquor carrying trade operating their own gas boat, the Beryl G., between the mother ship Comet near Flaterry and D'Arcy Island.

On October 18 Gillis's boat was found adrift, not far from D'Arcy Island, with blood all over the forward and aft decks, down the companionway and on blankets in the bunk. A cap belonging to the boy was found with blood around the inside leather band.

Since that no word had been received from Gillis nor his son, and the police have decided they were murdered.

### ANCHOR MISSING

A link of the anchor chain had been sawed through, and the anchor, with a piece of chain, is missing, the theory of the police being that Gillis and his son were taken aboard, murdered and their own anchor used to weight the bodies down when thrown overboard.

As soon as the rum runners were certain that Gillis had been killed the Canadian runners, detailed committee to make a complete search of the shores of nearby islands for the dinghy, which was also missing from the Beryl G., and at the same time to drag the kelp of Maple Bay and two other points where Gillis was known to anchor at times.

### SEEN ON SOUND

Several days before Gillis's boat was picked up three men known to rum runners to have been in several hi-jacking attacks last winter were seen on Puget Sound waters headed north.

Canadian rum runners canvassed all bars and points where the Canadian boats meet the American carriers, and have become convinced that this trio of old-time hi-jackers committed the crime.

### SHOOT ON SIGHT

A meeting was held in Seattle of the Puget Sound runners with the result that representatives came to Vancouver for a conference, and the meeting here decided to shoot on sight these men who are held responsible for such a serious crime.

One of the Seattle men said on leaving the meeting Sunday: "We owe it not only to Gillis but to the wife and family of every man in the trade to rid the seas of such ruthless pirates and we will do it."

### ARMOR USED

Liquor carrying boats leaving here during the past week have been exceptionally well armed and armor cases that were the vogue on these boats a year ago have been revived. The rum runner has a chance to put his head above the gunwale and take a shot at the hi-jacker who the invader can only rattle his bullets against the plate.

The killing of Gillis and his son is considered by the rum runners to be the worst catastrophe that has befallen the traffic in these waters.

**HE STARTED IT**—The country was just recovering from an attack of Mah Jong when F. Gregory Hartwick, New York reporter, Yale graduate and author, started the cross-word puzzle epidemic. He started it as an amusement for kids—but grownups took it seriously.

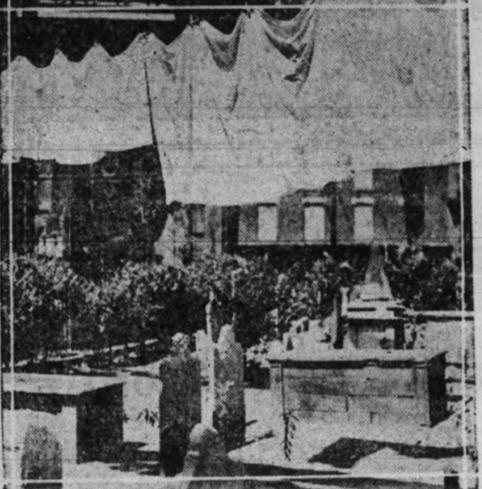

**FASHION NOTE**—To be a fashionable Boston girl take one bright yellow raincoat, paint in bright colors whatever picture suits your fancy upon the back and parade your town's most prominent street. Ester Cofinsky, Wellesley College girl, is demonstrating.

**IN DEBATING CONTEST**—These are the men who represented the University of Cambridge in the intercollegiate debate which took place in Convocation Hall, University of Toronto, last week. They are, left to right, Richard A. Butler, A. P. Marshall and Gerald Sparrow. They are men who are internationally known for their ability as public speakers and have toured the continent and have recently commenced a Canadian and American tour. They were opposed by C. R. Fay, professor of economics; B. T. Holmes and W. S. Milne of the University of Toronto. Cambridge won.

**MISFIT EYES**—His right eye is blue. His left is brown. He has perfect vision. Did you ever hear of a dog like him? His name is "DIT"rent and his owner, Miss Sue Williams of New York City, wouldn't sell him at any price.

**IN THE HEART OF NEW YORK**—This cemetery, the first Jewish burying ground in the United States, was consecrated in 1656. At one time during the Revolutionary War it was used as a fortress. A century ago it was in the heart of fashionable New York. But now buildings crowd around it, and tenement dwellers find it a fine place over which to drape clothes lines.

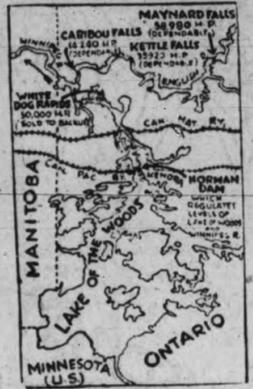

**MISS "CLAM BEACH"**—Visitors to Tokio have named this young Japanese woman Mary Ann McCarthy and have voted her the prettiest clam digger on any of the Tokio bay beaches.

**WARRIORS CARRYING ON**—Two figures who loom large in the wars now in progress, despite the talk of peace and disarmament, emanating from Geneva, are shown above. Left is General Peng Yutshiang, a Chinese convert to the Methodist Episcopal faith, who is credited with having the best disciplined army in China. Right, General Budenny, the ruthless red Cossack, who overthrew Denikin and who has just stamped out the insurrection by which the Georgians attempted to throw off the Soviet yoke.

**SHE TRIED HARD**—Miss Eva Morrison, nineteen, of Pictou, Nova Scotia, was forced to abandon her attempt to swim to the Boston light after being in the water six hours and forty-five minutes. Cold water and the tide interfered when she was within two miles of her goal.

**YIELDS WATER POWER CONTROL**—According to an Ottawa dispatch, E. W. Backus has conceded the request of the Manitoba and Ontario governments that he release to the joint federal and provincial board the control of the flow of the Winnipeg River, on which Winnipeg depends for power.

**COLLEGE LIFE**—Stove blacking on his face and threatened with more and still this freshman smiles. These are the days when such strange sights and worse, are common on every college campus throughout the length and breadth of this land.

 (By Howard R. Garis)

"When you go adventuring today, Uncle Wiggily," spoke Nurse Jane, the muskrat lady housekeeper to the bunny rabbit gentleman, one morning, "I wish you would take the molasses jug and have it filled."  
 "Filled with what?" asked Mr. Lonsdale, trying to be funny.  
 "Oh, have it filled with vinegar if you like," answered Nurse Jane with a sly smile. "Only, if you get vinegar in the jug instead of molasses, I can't make you an apple pudding—"

hopped in and said, most politely: "I want some sticky-icky sweetie-molasses, if you please, but I forgot the jug. Could you lend me

"Oh, what's happened to me?" he cried.

"That will do very nicely," said Uncle Wiggily. And soon, with the bottle of molasses in his pocket, he was hopping back home. He felt that way these he felt tired, so finding a pile of dried leaves in the forest he stretched out on them and went to sleep. And while he slept the cork popped out of the bottle in his pocket and it ran the molasses like a bay out of school.

Down on the dried leaves trickled the sticky molasses. Uncle Wiggily rolled over, this way and that way, in his sleep, and the molasses-covered leaves stuck to him. They stuck to his back, to his sides and to his head. Oh, he was all covered with leaves and molasses.

And when a lot of molasses leaves stuck to his nose they tickled the bunny and he awakened. Near him was a spring of water, clear as a looking glass, and when the bunny saw himself he cried:

## The Surprising Sex

By MILDRED BARBOUR—A "hor of 'Love Stakes,' Etc.

Julie's Problem

Jimmy Phillips seemed fated to be the bearer of disquieting tidings in Julie's life. He reappeared in Washington after a sojourn in Atlantic City, very tanned and with a frankly and unromantically peeling nose.

"Say, have you heard the news?" he inquired, leaning over her shoulder, recounting of his seaside experiences—experiences which included numerous "I tell you I knocked her after that," she was crazy about me after that," or "If I say I was binged that night, Julie shook her head, a very quiet life. I haven't heard a word from anyone—not even a letter from Cranston."

"Anna Denniston's mother died last week!" Julie's announcement came with dramatic effect. He was a bit disappointed at Julie's quiet reception of it. He wondered impatiently if it was really such a dumbbell that she was unconscious of its significance.

But Julie had not been schooling herself in polite for nothing. So she only said: "That's too bad. I'm sorry for Miss Denniston. She was very devoted to her mother, wasn't she?" Not a word about what Anna's freedom from maternal tyranny meant to herself!

But, inwardly, she was in turmoil. After the first sickening blackness skin to the effects of a physical blow, she began to grope through the chaos of her jumbled thoughts.

Was this to be the end? she asked herself, while Jimmy babbled on unheard. Was Fate thus taking away her chance to redeem herself in her husband's eyes? A little more time, a little more intensive study, a little more determination, and she might have demonstrated to Blake, even yet, that she was worthy of a man in public life. But the wife of a man in public life, she now that Anna Denniston was free, what did it signify that he would be resentful toward the girl to whom he was tied while the woman he really loved stretched out yearning arms to him?

Long after Jimmy had gone away, busy at her institution, she sat staring thoughtfully before her, trying to fix on a course for her future. Jimmy's last resentful words lingered with her.

"If you take a tip from me, you'll be a little nicer to yours truly. Now that he can get Anna Denniston, that fine Blake's new wife, do you remember I warned you long ago that he'd be through with you sooner or later, and you'd be glad to have me back." She took no notice of his sneers. Neither the unnatural flush on his cheeks or his hot breath were needed to tell her that he had been drinking. But the truth of his parting words Blake would ever show by word or deed that she was unwelcome as his household and the chateaux of association had proved that. He would be kindly, courteous, chivalrous, a gentleman—always.

## "GHOST - CEREALS" "Shadow-Foods" "Foodless-Foods" "Spook-Foods"

Eat them if you will, but they are called "GHOST - CEREALS" "Shadow-Foods" "Foodless-Foods" "Spook-Foods"

by modern Food Science, because the mineral elements, without which the human body cannot be soundly built, have been refined out of them by removing the fat-containing germ, the bran, the rich, brown flour. They contain mostly starch, which cannot build either muscle, bone, blood, brain or nerves. But they can, and do turn the blood acid, a very dangerous and un-natural condition, which induces disease.

### Dr. Jackson's ROMAN MEAL

is a real food, made from whole wheat, whole rye, flaxin and bran. It is rich in mineral salts and has every element your body needs in the exact proportions needed, and it has no element that your body does not need. It builds bone, muscles, blood, brain and nerves, and aids heart action.

Add Roman Meal to your daily diet, in addition to green vegetables and fruits, and keep gloriously fit and well.

Roman Meal is the most strengthening and the best body-building food in the world, therefore of the utmost advantage to the run down and to the child from the 10th month, and also for nursing and expectant mothers, because of its growth-promoting properties. It prevents indigestion and positively relieves constipation.

## U.S. AND EUROPEAN RADIO WEEK SOON

Messages to be Exchanged Across Atlantic From Nov. 24 to 30

Washington, Oct. 9.—Plans for an international radio week from November 24 to 30, during which time United States broadcasting stations will attempt to transmit messages to Europe and European stations will attempt to establish communication with the United States, have been announced by Arthur Lynch of New York, attending the national conference and other foreign delegates to the meeting. Lynch will broadcast a message of greetings to the people of Europe, and King George will be invited to speak to the United States, Mr. Lynch said.

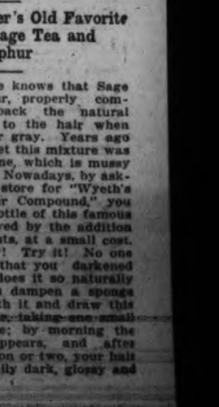

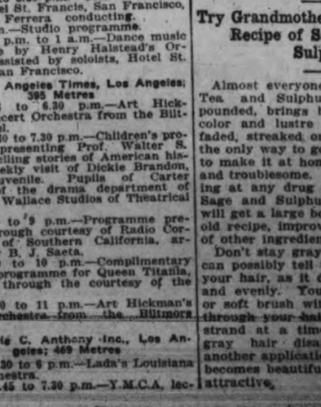

## WOMAN DENOUNCES SYNOD'S ATTITUDE

Mrs. (Canon) Plumtre Says Church "Unsporting" in Excluding Delegates

Toronto, Oct. 9 (Canadian Press)—"Does it seem sporting or democratic for the church to allow the women to do nine-tenths of the parish work and practically all the mission financing, yet refuse them the right in the direction of the affairs of the church?" Such is the question asked by Mrs. H. P. Plumtre, wife of Rev. Canon Plumtre of St. James Cathedral, following the refusal of the general Synod of the Anglican Church for Canada to seat Miss Inez Smith, delegate to the Synod from Hazelton, B. C., because she was a woman.

"Polygamy is not in the church teachings," said Mrs. Plumtre, "but by saying woman's principal work is the bearing of children, do they mean that polygamy should be practiced? If not how could this system work out with so many thousands of excess women in the world? If the constitution says a woman shall not be admitted, the bishop could not overrule that constitution. Other than for that reason I can see no possible opportunity, she reasoned, even if she were chosen as the most capable to represent that district. Think of the church work done by the women!"

## BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea, a sulphur property compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by carrying at any drug store for "Wright's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

**HIS DISAPPOINTING DAY**

As Mr. Brown had his wife good-bye he told her he was off to the races. Unluckily, he fell in with some boon companions, and eventually he was lodged in the police station for the night.

When he returned home next morning his wife inquired, "How did you get on at the races?"  
"Oh," returned her husband, with a shake of the head, "I found the meeting nothing but a cell!"

**PARENTS APPROVE SCHOOL DENTISTRY**

Majority Keen For Children's Teeth to be Fixed, Trustees Told

Members of Dental Society Will Advise Board on Best Methods

Headed by Dr. C. A. Harding, president, members of the Victoria Dental Society conferred with the School Trustees last night on the method of medical inspection of school children's teeth and the school dental clinic, with the result that after a conference with School Inspector Deane, Dr. H. Henderson, schools dentist and Dr. Donald, schools medical officer, recommendations will be made to the board. Dr. Lewis Hall, Dr. R. E. McKeon and Dr. Arthur Poyntz represented the Dental Society in addition to the president, and all voiced their approval of the school's dental clinic. It was possible, however, they stated, that they would be able to make recommendations which would help the board to secure the most efficient administration and the greatest measure of economy.

Dr. Henderson, the schools dentist, said since he took over the school dental clinic a month ago, 704 pupils between the ages of six years and nine years had been examined. During last month there were 128 fillings and thirty-six extractions. Dental operations on the younger children were

limited to half an hour, as that was considered all they could stand, but with older children an hour was spent if necessary. After examinations notification by card was sent to the parents of those children requiring dental attention. The cases where free dental attention was desired a school nurse made inquiries to see if this were justified, and if it were found necessary free service was supplied. Parents generally were anxious to have the teeth of their children attended to.

In answer to questions the doctor stated that a check on whether the work recommended on the teeth had been performed either by a family dentist or at the free clinic was made at the following examination. Pupils were examined every term. Answering Dr. McKeon he said last year 131 children were treated at the clinic and 277 by city dentists.

School Inspector Deane, speaking on the follow-up system, said it was the duty of the district school nurse to follow up the cases where attention to teeth was recommended. He thought it possible a more definite follow-up system could be put in force.

**THE SCHOOL NURSE**  
Dr. Lewis Hall questioned whether it would not be more effective for an examination by the school nurse and the pupils being sent to the clinic. This was the practice followed in Seattle and left the dentist free to work in the clinic.

Answering Trustee Litchfield, Dr. Hall said he believed the Dental Association favored the idea of a school dental clinic and Dr. McKeon said the association had passed a resolution endorsing the plan.

Mr. Deane brought before the board the attention a suggestion advanced by the late Dr. Mason of a portable dental chair to eliminate the loss of time through broken appointments.

**ENDORSE INSPECTION**

"There is no doubt in the minds of the dental profession that there is need for dental inspection in the schools, and the Dental Society is willing to co-operate with the board to evolve a plan that will give the greatest efficiency and the greatest measure of economy," said Dr. McKeon. He suggested that two or three members of the Dental Society confer with Dr. Henderson and carefully review the reports on the school clinics and then make recommendations to the board.

A committee consisting of Trustees Maunsell, Inspector Deane, Dr. Henderson, schools dentist, and Dr. Donald, schools health officer, was appointed to confer with members of the Dental Society.

**CURED HIS RUPTURE**

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 4212, Marcellus Avenue, Manhattan, N. Y. Better cut out this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

**SCHOOL TRUSTEES MET LAST NIGHT**

Half-rate, For Water Will be Sought From City; no Money For Sports Secretary

A request was received from the Victoria Schools Sports Association by the school trustees last night asking that an extra \$150 a year be added to the salary of the teacher acting as secretary for the association. Inspector Deane said while he would not impute the secretary was not doing a lot of extra work, it was possible that by a more even distribution of the office might be made less burdensome. It might be possible \$150 could be better spent on equipment. On the proposition of Trustee Litchfield, the request was refused. Trustee Litchfield pointed out that there were no funds which could legally be used for this purpose.

**COST OF WATER**

Trustee Beckwith, chairman of the finance committee, drew attention to the fact that in Victoria with a school population of less than a third of that of Vancouver, the School Board last year was charged \$2,461 for water, compared with \$2,321 charged to the School Board in Vancouver. He believed it was time the board made a demand on the City Council for a more equitable and fair rate. He understood city services received a half rate, and it was only fair the School Board should receive the same rate.

**THANKS**

A letter from the Victoria West Parent-Teacher Association conveyed thanks to the board for the recent improvements carried out at the school and for the interest shown in the general welfare of the school.

**ASK GRANT FOR COST OF OUTSIDE PUPILS AT THE HIGH SCHOOL**

The Department of Education will be asked by the Victoria School Board to make a grant for the cost of education in the Victoria High School of pupils from unorganized districts. Motion to this effect, moved by A. G. Smith at last night's meeting, was carried without opposition. Mr. Smith stated that there are twelve such pupils at present at the Victoria High School, and if they were from Esquimalt, Saanich or Oak Bay the board would be receiving a revenue of \$1,000 for the twelve pupils. They did not wish to deprive them of their education, but the onus he thought was on the Department of Education, and he proposed that the Department be approached by the board for a grant.

**COULDN'T EVEN WALK AROUND HER HOME**

Without Suffering Extreme Discomfort, Says Mrs. Wrigley—Then Tanlac Restored Health.

"Inside of twenty-four hours after starting on Tanlac I could tell it was helping me, and five bottles has increased my weight ten pounds," is the striking statement made recently by Mrs. Kate Wrigley, 1319 1/2 Avenue, Toronto, Ontario, Canada. "For a whole year before taking Tanlac stomach, liver and kidney disorders had me so run down that I couldn't even walk around in the house without suffering extreme discomfort. Frequently after eating my stomach would hurt me so that I would cry out from the pain. Nights my rest was often broken and mornings my tongue was coated white. I had no appetite, and my weight was going down."

"But Tanlac has made me eat, sleep and feel better than in two weeks. This great medicine alone is due the credit for the wonderful improvement in my health."

Tanlac is sold by all good druggists. Accept no substitute. Over 10,000,000 bottles sold.

**FREE HIGH SCHOOL**

TRUSTEES MAY HAVE LIMIT BY SAANICH

Trustees Admit Sixteen-Year-Old Entrants But Advise Future Restrictions

The Saanich School Board last night discussed the possibility of reducing rapidly mounting charges for High School tuition by limiting free tuition to pupils not past their sixteenth birthdays.

Analysis of the attendance from Saanich at Victoria and Oak Bay High Schools shows that 125 pupils are on the rolls. Of these ninety-eight are new entrants this year, sixteen being above sixteen years of age. The board was in agreement as to the establishment of a limit age of entry, but Trustee Mrs. Beckett protested against action which would injure new High School pupils above sixteen years of age who have in good faith just made heavy investments in text books.

The trustees agreed that imposition of age limits should have been effected earlier in the year, and abandoned proposals for prompt action, confining themselves to recommending to the City the adoption of limitation of free High School tuition to pupils not past their sixteenth birthday at the time of entry to High School.

**To Address Congress**

Rev. D. N. MacLachlan of Toronto, a college mate and lifelong friend, writes of him as follows: "Mr. Jones came to Canada from Wales when he was in his early teens. Before leaving his native land, however, he had the advantage of sitting under an able master in a Welsh school. On reaching Canada the Jones family for a number of years engaged in farming near Winnipeg. Although absent from that community now for many years, the influence, refining and wholesome, exerted on the people of the neighborhood by the Welsh family is still strong."

"Before he had finished his theological training in Manitoba College, Winnipeg, a new congregation in that growing city had selected him for their minister. After graduation years St. John's congregation flourished under the pastoral oversight of Mr. Jones. His congregation was in the northern portion of the city, where industrial and social problems are always present in acute forms. From the first Mr. Jones manifested a keen interest in those questions which affect human relationships."

The presbytery of Winnipeg selected Mr. Jones to be convener of its committee on home missions and social service. He discharged his duties in this capacity with such satisfaction and distinction that he was made a member of the General Assembly's Board of Home Missions and Social Service.

"Mr. Jones is a man of studious habits, thorough in his examination of any subject. As a speaker he possesses all the enthusiasm and fire of his race. He is broad in his sympathies, wise in his judgments, and careful in action. In matters that affect public welfare it will never be difficult to co-operate with the associate secretary. Perhaps the best, and at the same time the truest thing that can be said of him is that to know him well is to trust him fully."

**J. PHILLIPS JONES, M.A., B.D.**

Who is to be one of the visiting speakers at the Social Welfare Congress, which will be held in Victoria during October 12 and 14. A gold medalist of Manitoba University and a minister of high standing in Winnipeg and Lethbridge, Mr. Jones is now associate secretary of the Social Service Council of Canada and resident in Calgary. He is a clear thinker, a wise counsellor and an effective speaker.

Rev. D. N. MacLachlan of Toronto, a college mate and lifelong friend, writes of him as follows: "Mr. Jones came to Canada from Wales when he was in his early teens. **IRISH BOUNDARY BILL IS ADVANCED**

London, Oct. 9.—The House of Lords last night passed the second reading of the Irish Boundary Bill without amendment by a vote of seventy-one to thirty-eight, and carried Lord Salisbury's declaratory motion that the House "takes note" of the opinions expressed in Parliament and elsewhere that "Article XII of the treaty contemplated nothing more than a readjustment of the boundaries." This amendment is not to the bill itself, and has no effect. In fact, some of the Conservative Peers, including even Lord Carson, opposed it on the ground of the inadvisability of forcing an appeal on the country on the Irish Bill, which might happen if the Lords insisted upon any amendments.

**LIFE IMPRISONMENT**

**FRENCH INTERESTED IN BRITISH ELECTION**

Position of Herriot Cabinet Similar to That of the MacDonald Ministry

Paris, Oct. 9.—The defeat of the MacDonald Government in the British House of Commons, although anticipated in French official circles during the last few days, has made a deep impression here because of the similarity of the French Cabinet's situation to that of the British Labor Government.

It was remarked to-day by an individual close to Premier Herriot that Premier MacDonald's term in power had been of great benefit to Anglo-French relations, the negotiations between the two Premiers having lifted the discussion of Anglo-French interests to a higher plane, and he predicted that whatever the result of the British election might be the relations between the two allies would be permanently improved.

**"Child's Eyelids Inflamed Stuck Together and Bled"**

Mr. E. P. Kimball, Entwistle, Alta., writes: "Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."
